Women Are Fighting For Ballot In East  
WITH THE STATE FATHERS AROUND CAPITOL  
RAILWAY LEADERS ON TRIAL

NEW JERSEY  
ON EVE OF  
BIG BATTLE

Newark, N. J., Oct. 18.—The first great eastern fight on the suffrage battle line of woman suffragists is today only 24 hours away. At six o'clock tomorrow morning the polls throughout the state of New Jersey will be thrown open to determine, at a special election, whether "votes for women" banners will be planted victoriously thereafter upon the Atlantic seaboard.

Two weeks from tomorrow the states of New York, Pennsylvania and Massachusetts likewise will decide whether they will join their twelve western sister states in giving women the ballot.

President Wilson's declaration for suffrage, reinforced by a thorough and vigorous campaign waged by organizations and workers is expected by suffrage leaders to carry the day for woman suffrage in his home state of New Jersey.

NEW JERSEY MAY TAKE TWO DAYS  
TO OUTLINE CHARGES

New York, Oct. 18.—The jurors chosen to try Wm. Rockefeller, Lewis Cass Lodge, Edward D. Robbins and eight other directors, or former directors of the New York, New Haven and Hartford railroad, charged with conspiracy to monopolize interstate commerce under the Sherman law, took their seats in the federal court today to hear the opening address of R. L. Batts, attorney for the government.

Mr. Batts expected to occupy the whole day, and probably all of tomorrow, in telling the jury what the government intended to prove. He planned to outline the case in chronological order, beginning in 1890, the date of the enactment of the Sherman law, and tracing the various transactions under which formerly railroads, trolley lines and steamship companies in New England were brought into the New Haven fold.

Before Mr. Batts began, Assistant District Attorney Stevenson read to the jury the text of the indictment. He also read the text of the Sherman act.

"This, Mr. Batts on taking the floor, first explained to the jury. "It will be necessary," he continued, "for the government to show that these defendants have with an intent, which we will speak of as a criminal intent, conspired to monopolize the traffic of New England. The government will show that they did these things with a knowledge that they were unlawful, that they knew they were violating this act."

The attorney said the jury would be asked to consider the methods by which the alleged unlawful acts were done, as well as the acts themselves.

The government would show, Mr. Batts said, that J. P. Morgan, Wm. Rockefeller, C. P. Clark and Lucius Tuttle, agreed to indemnify Austin Corbin for the consequences of their maintenance of the suit. The suit resulted, he asserted, in the New York and New England going into the hands of a receiver and the New Haven purchased a controlling interest in the stock.

The heirs of Goldsmith subsequently brought suit for \$25,000 against Corbin as damages "in the way of oppression and injury to name and business" which the attorney charged, the New Haven settled.

DECISIONS  
BY THE ATTY.  
GENERAL

Columbus, Oct. 18.—Big profits in collecting delinquent taxes were headed off today by Attorney General Turner, when he gave an opinion to Prosecutor S. W. Ennis of Paulding county, that a county treasurer may not contract with any person to collect delinquent taxes. If this has been done and fees paid for the work, the county prosecutor must take action to recover the annual payment, the attorney general says.

HOLDS FLEET READY  
TO STRIKE GERMANS

Sir John Jellicoe.

Although it seems unlikely that the German fleet will care to meet the British navy, Sir John Jellicoe, commander of the great British fleet, sleeps on the bridge of his flagship and is in constant readiness for battle. Sir John has served in every branch of the navy.

Paris, Oct. 18.—French forces repulsed completely last night three German attacks, according to the announcement given out this afternoon by the French war office. These took place at Bois-en-Hache, to the north-east of Soissons.

La Panne, Belgium, Oct. 17.—(Via Paris, Oct. 18.)—The Belgische Standaard, published here, says that a terrible bombardment was in progress along the Yser front Saturday and Sunday nights. The firing was especially violent near Dixmude and Ypres. This bombardment was the prelude to an attempt by the Germans to break the Belgian lines. The Belgian artillery returned the fire, shelling the enemy's communication trenches and scattering his infantry as they leaped from the trenches. A second attack on a smaller scale also was repulsed. This offensive took place in the Dixmude region at a spot known as "Death's Highway," which has been stubbornly disputed by both sides. Although mowed down in rows the Belgians have been holding their own and are not yielding an inch of ground.

PLAN FOR MANNER  
OF RECOGNIZING THE  
CARRANZA FACTION

Washington, Oct. 18.—Determination of the form in which recognition of the Carranza government in Mexico shall be extended, was the subject of a conference here today of Pan-American diplomats. The conference had been called by Secretary Lansing, and meeting with him were the diplomatic representatives here of Brazil, Chile, Argentina, Bolivia, Uruguay and Guatemala.

Recognition by countries having diplomatic representatives in Mexico was believed, would take the form of a renewal of relations in an official way. The United States and other countries now without representation in Mexico City were to extend recognition by presenting a note to General Carranza through Ambassador Arredondo, his representative here.

A statement on conditions in Mexico based upon a report from General Alvaro Obregon and given out by Eliseo Arredondo, declared that the only organized opposition to the Carranza government was confined to portions of the states of Sonora and Chihuahua, adding that no opposition had been sent to Sonora to assist constitutionalists now there in smothering the Magdalen army. The statement also announced the surrender of many former Villista officers.

Carranza reports today say Toledo, near Mexico City, has been taken from Zapata forces, that near half the state of Chihuahua is completely controlled by Carranza forces, that Juarez is cut off from the frontier, and that many towns in the north are arming against attacks by Villa forces.

General Carranza's war office has moved from Vera Cruz to Mexico City.

"ARMED PREPARATION" IS URGED FOR WINTER  
CLEAN STOVE PIPES-WATCH CONNECTIONS

Columbus, O., Oct. 18.—Bert B. Buckley, state fire marshal, today issued a bulletin urging persons to clean stove pipes before winter sets in, and to make careful connections between the pipe and wall, or ceiling, to prevent fires. He also cautioned

against the use of gas stoves without flues to allow the escape of fumes.

"To jar a piece of pipe loose the soot will enough," he says, "but its inner surface should be scraped to remove scales of rust. The seam along each pipe

should be inspected to determine if it is spark tight.

"A stove pipe should not stand within less than three feet of the unprotected wood-work. If a piece of zinc, sheet iron or tin is hung loosely on a hook in the wall, the pipe may

be safely placed within a foot.

"Attention to the avoidance of escape of products of combustion of natural gas is of serious importance on account of the danger of asphyxiation of occupants by fumes escaping into the room.

FRENCH STEAMER SUNK  
BY AUSTRIAN SUBMARINE

Paris, Oct. 18.—The Marseilles correspondent of the Petit Journal telegraphs that the mail boat Eugene Perceire has arrived there with thirty-three members of the crew of the French steamship Amiral Hamelin, which was sunk by a submarine. A previous report from the Havas correspondent said that seventy-one persons on board the steamer lost their lives.

The Amiral-Hamelin was under government requisition. Accord-

ing to the Petit Journal correspondent she was torpedoed by an Austrian submarine without notice and while passengers and crew were being transferred to the boats the submarine bombarded the steamer which was struck by forty shells.

The captain of the submarine asserted as justification of his attack that the steamer was armed, but this is denied by the correspondent. Six of the crew were wounded by the bombardment.

ITALIAN KING SHOWS REAL COURAGE

Paris, Oct. 18.—King Victor Emmanuel's contempt for danger, says a despatch from Rome, is the source of one of General Cadorna's greatest anxieties. Recently the king stood watching a battery in action on the Carso front when a hostile aeroplane flew directly over him. His staff begged him to move but he refused.

Two Italian aeroplanes meanwhile gave chase to the enemy, which flew back toward its own lines, dropping a series of bombs, one of which fell close to the king.

OPEN OR SHUT?

Columbus, Ohio, Oct. 18.—Can the State Utilities Commission compel a farmer to keep his gates closed to prevent cattle from wandering onto railroad tracks? This is a question the commission was trying to solve today, following receipt of a complaint from the Vanhus railroad officials. They said a farmer at Neapolis, Ohio, insists on leaving his gate open and his cows and horses insist on running along the railroad tracks. The railway officials assert this endangers the life of passengers and crews.

## Famous Business Woman, Cora Dow, Is Called By Death

Cincinnati, Oct. 18.—Cora Dow, one of the best known business women in the United States, died last night at her home, Elmhurst place, Walnut Hills. She was conscious up to within half an hour before the summons came at 7 o'clock.

At the bedside were her aged mother, Dr. A. B. Thrasher and wife, A. M. Hopkins, manager of the chain of Dow drug stores, and the trained nurse. Miss Dow, whose commercial title was M. C. Dow, had been confined to her home for almost a year. She had been in poor health for three or four years. There was too much energy and ambition for such a frail body, and she ceased her wonderful activity

when too late. Several long trips were made by the noted woman, but she failed to receive any benefit. Overstrain and overwork brought on tuberculosis, which was the cause of her taking off.

Martha Cora Dow was regarded almost as a Cincinnati institution. She was personally acquainted with thousands of the citizens and was well known through her business enterprise, by nearly everybody in the metropolitan Cincinnati district. Her chain of stores has linked her name in a business way, with the greater part of the United States. The drug business which she developed in Cincinnati is said to be the largest retail industry under one name in the entire Ohio Valley.

## Armory Robbers Are Sentenced

Following a confession alleged to have been made by Ed Bowman, one of the suspects in the Company K armory robbery, Chief B. E. Allen and Sergeant James Marshall recovered two Springfield rifles, bayonets and belts, Sunday night.

The guns were found in a box buried underground in a shed at the rear of John Wilburn's home on Gallia street, near Officers. According to the confession, three or four army blouses were taken from the armory by Ed Greenslate after drill house by the mayor Monday afternoon. Bowman, the one-armed inmate, was given a suspended fine and workhouse sentence. Greenslate astonished the court by advising the police, now that they had struck pay dirt, to continue their investigations and they would soon show that wholesale stealing of state property has been going on at the local armory for some weeks past.

Bowman told the police that Wilburn returned to the armory again last Thursday night, entering it through a window, and then stole the box containing 1200 round of cartridges, which police found him

(Downman) and Wilburn carrying between them late that night.

The police think that there may still be other equipment missing from the armory and will advise a more careful inventory be made. Lieut. Joe Horchow had only reported one gun missing from the armory. Wilburn and Greenslate are both members of the militia company.

Wilburn and Greenslate were fined \$35 and costs and were sentenced to 60 days in the Cincinnati workhouse by the mayor Monday afternoon. Bowman, the one-armed inmate, was given a suspended fine and workhouse sentence. Greenslate astonished the court by advising the police, now that they had struck pay dirt, to continue their investigations and they would soon show that wholesale stealing of state property has been going on at the local armory for some weeks past.

## The Movies

### "The Two Orphans" With Theda Bara At Lyric Tonight

Everybody will be glad to see "The Two Orphans" at the Lyric tonight.

This is probably the most interesting picture ever brought to town. It is a Fox production that cost \$200,000. Theda Bara, Wm. E. Shay and Jean Sully are the stars supported by the greatest cast ever assembled in one picture. There are seven parts and all in all it is positively the most overwhelmingly magnificent production you ever laid your eyes on. From start to finish it is just one sensation after another and you will find the seven parts so interesting you will wish for seven more. The admission to this great picture will be ten cents at the afternoon shows and twenty at night with children at ten cents. This picture is showing in larger cities at admission from \$1.50 orchestra to 25c gallery.

Tonight she shows will start at 6:30, 8:10 and 9:45. Whatever you do, don't miss this wonderful picture.

### Mabel Taliaferro in "The Three of Us," Columbia Tonight.

Mabel Taliaferro, one of the most beautiful as well as one of the most talented of the younger Broadway stars, will appear at the Columbia this evening in "The Three of Us," an unusually interesting story of Colorado in five reels of highest class motion pictures.

This typical story of the west by Rachel Cruthers, is a stirring romance of the gold fields, where the stern law of every man for himself, quickly separates the weak from the strong and makes a picture story not only thrilling and interesting, but it has been set and surrounded by the most beautiful bits of wild western mountain scenery, and if you enjoy a picture with beautiful natural scenery, you can't afford to miss seeing "The Three of Us" at the Columbia this evening.

Who has not heard or seen Marie Tempest the celebrated comic opera star. Tomorrow she makes her first appearance in motion pictures at the Columbia in "Mrs. Plum's Pudding," the cleverest of all of her farce comedies, making a picture in five reels.

brimful of laughter from start to finish.

"The Sins of the Mothers" on Wednesday is the prize story from the New York Sun's \$1,000.00 contest; this is one of the truly great pictures of the year, featuring Anita Stewart, Earl Williams and a strong company of selected Vitaphone stars. Watch for further announcement on this picture.

### Charles Chaplin In "Work" At The Exhibit Tonight

Charles Chaplin, assistant to a paperhanger, is called with his boss to decorate a beautiful home. The boss makes him haul the wagon with all the paraphernalia upon the top of which he rides. Chaplin, dragging the wagon with difficulty, blocks traffic, bumps into a street car, falls down a man hole and beats up a policeman, among other mishaps. Arriving at the house, they proceed leisurely to work, while the master of the house is clamoring for his breakfast. They dash the rooms indiscriminately with paste and nearly wreck the place. Finally Chaplin is called to the kitchen to fix a stove which insists on exploding with malicious regularity. He drops the scaffold on which the boss is standing, spilling him on the floor. The boss accumulates a bucket of paste in the tumble, which sticks to his head. There is more to this picture, so don't miss it.

After you have enjoyed seeing Chaplin, a fine Lubin production, "Tap, Tap, Tap," a two reel picture, will fill the program for tonight. In this picture Mr. Hedgus, a wealthy father, has many trials and worries in trying to reform his son, and in trying to make a man of him. Many beautiful scenes are introduced.

### The Arcana

Manager Potts has a great treat in store for his patrons tonight, and no doubt the Arcan will begin the week with a big attendance. The first offering is a United feature, "The Shop Nun." This is one of those peculiar pictures, the effect of which would be spoiled by telling just what occurs. The less you know about it, the more you will appreciate it when you see it. This production is followed by a side-splitting comedy called "More and More." When the sky is full of stars, papa gives up in despair. The last offering to complete the

bargain program is a Victor production, featuring Harry Myers, Rosemary Theby and B. Shaw, three of the leading picture stars in "The Artist and the Vengeful One," a picture telling of love, jealousy and hatred. It has a beautiful love story, the kind that always appeals to movie patrons.

### At The Majestic

One of the best comedies that has ever been offered at the Majestic theatre is to be seen there tonight. The management is offering Sid Chaplin in his latest comedy success, "A Lover's Lost Control." It is one continuous round of laughter from beginning to end and is a guaranteed grouch chaser. Two more reels of thrilling detective work are offered in the detective picture, "Detective Blinn." Winifred Greenwood and Ed Coxen are taking the leading roles in this big dramatic picture. Four reels of high class movies here for five cents.

### Temple Theatre

Tonight along with the Diamond from the Sky, a three-part feature entitled "The Unsuspected Isle," starring Fannie Marloff, an Indian princess is decorated by a New York tourist from a small island in the South Atlantic to Broadway, where she dances in native costume in a cafe. This picture alone is well worth the price of admission. The title of the "D. from the S." is "The Path of Peril."

### Two Orphans

One of the best pictorial features that has been brought to the city in a long time will be shown at the Temple theatre on Eleventh street Tuesday evening when "Two Orphans," a William Fox feature in seven reels will be shown. This feature is sure to please lovers of the drama as "Two Orphans" is one of the great old dramas of real merit. Don't overlook this big feature at the Temple tomorrow night.

This is Manager Smith's first Fox feature and if patronage comes up to his expectations he expects to offer many of this producer's best films for his patrons. There is no question but what "Two Orphans," in seven reels is one of the best pictorial features ever brought here and the Temple theatre should be packed at all performances tomorrow. Comedy, pathos and sentiment are beautifully woven in "Two Orphans."

#### Ted Dalley Stock Opens Sun Tonight

Tonight at eight o'clock at the Sun theatre marks the inaugural of the Ted Dalley Stock company for an indefinite season of dramatic stock, presenting the very best and latest releases of the plays that have heretofore been presented at \$1.50 prices.

"The Deep Purple," Paul Armstrong's biggest success, has been selected to introduce the company, the play giving each member of the company a good part. Special scenery and effects will enhance the production. The company has been here the past week and have already made many friends and we have no hesitancy in predicting the Ted Dalley Stock company will be here for the season. The sale of seats is already large and everything points toward a big audience tonight.

A popular matinee will be given Tuesday, after which the audience is invited upon the stage to meet the company.

# PHYSICIANS GUESTS AT MEETING OF DENTISTS

Physicians of Portsmouth were invited guests at the semi-annual meeting of the Southern Ohio Dental society, which convened Monday afternoon at two o'clock in the assembly room of the Carnegie library building on Gallia street. They evinced a lively interest in the discussion of the topics during the afternoon session.

Dentists from the seven southern Ohio counties comprising the Southern Ohio district, and invited guests from Huntington, Ashland, Chillicothe and Cincinnati, were present when President H. A. Maffey called the session to order.

Two papers were read during the afternoon session, one by Dr. H. A. Schirrmann on "The Diagnostic Value of X-Rays and Their Correct Interpretation," and the other by Dr. J. W. Parsons, D. D. S., of Huntington, W. Va.

Animated discussions of much profit to members of both professions were participated in by the dentists and physicians present. The discussion of Dr. Schirrmann's paper was opened by Dr. S. D. Ruggles, of this city, while Dr. S. E. Langfitt of Huntington led the discussion of Dr. Parsons' paper.

At six o'clock this evening a banquet will be served in the library building, which will be attended by the members of the society, their visiting guests and local physicians.

After the banquet another session will be held, which will be featured by a paper by Dr. Hugh McMillan, of Cincinnati, on the subject, "The Anatomy of the Oral Cavity and Its Relation to Local Anesthesia." The discussion will be opened by Dr. Howard Williamson, of this city.

Every local dentist in this city attended the afternoon session. Visitors from afar were: Drs. J. W. Parsons, Thomas Dugan, J. Isenman, J. J. Kail, S. E. Langfitt, of Huntington; Drs. T. H. Williams and H. Bell, of Ashland, Ky.; Dr. Hugh McMillan, of Cin-

cinnati; Dr. W. H. Johnson, of Waverly; Drs. C. V. Pollock, H. E. Jenkins and P. S. Chestnut of Ironton; and Dr. S. E. Morehead, of Sciotoville.

Officers of the society, who held over until the spring meeting are: Dr. H. A. Maffey, president and Dr. O. O. Donaldson, secretary, both of this city.

## Want Road Paved

A delegation of Sciotoville citizens presented a petition to the county commissioners Monday for

the permanent improvement of two miles of the Sciotoville-Harrisonville road west of Sciotoville within the next two years.

## Karnival Report To Show Surprise

A slight surplus will be shown in the Korn Karnival fund in the financial report of the secretary, M. A. Coe, which will be submitted to the board of directors of the Business Men's Association this evening. The directors are extremely gratified to know that

such a successful exhibition was put on without a balance on the wrong side of the ledger. The advisability of having a Korn Karnival in 1916 will be discussed at the meeting and sentiment seems to be overwhelmingly for one.

## NEGRO SLASHED

Comp Commodore, colored, was seriously injured in a stabbing affray that was staged at the head of Paradise Alley about three o'clock this afternoon. Bystanders assisted him to the office of Dr. J. T. Brodnac on Eleventh

street, where an examination disclosed a three-inch cut on the left arm, a cut on the forehead, and one knife wound on each shoulder. The wounded man was removed at once to Hempstead hospital. He will recover.

The Drys' "Flying Squadron" was out yesterday. We have not yet heard that they offered any explanation for their mis-statements of last fall. Will they do it?

The Dry "Flying Squadron" was very indignant over the 75,000 "wet" majority that Hamilton County gave last fall. They evidently do not know that the entire Hamilton County "wet" majority could be transferred to the Dry column, and that the State would still be almost 9000 wet. And a Hamilton county voter has the same right to express his opinion as any other voter in Ohio.

The Ohio State Federation of Labor went on record against Prohibition by a vote of 250 to 8. This shows how the working man stands on Prohibition in spite of organizations nursed along to try to create a different impression.

Has it occurred to you that "Liquor" is only one incident of the fight to make one class of people live according to the dictation of another set? Tobacco is next in line. The destruction of tobacco by "night riders" was held to be a praise worthy thing by Bishop Moore of the Methodist church.

The "Non Smokers' Protective League of America," at their San Francisco convention passed resolutions asking that the cultivation of tobacco be prohibited by law. At the Ohio State Sunday School Convention, President McKinley's death was blamed on tobacco.

In Texas it is already illegal to play cards in the same house on two successive nights, and a reward is paid to anyone who will play the informer. How far will this so-called "reforming" go? You can help put an end to it by voting "NO" on Prohibition in Ohio.

### OBITUARY

**E. D. Hawk**  
Concerning the death of E. D. Hawk, father of Dr. H. E. Hawk, of this city, the St. Paris, O., News, Thursday, said:

"At two o'clock this morning the life of E. D. Hawk took its flight to its eternal resting place after an illness of long standing. Two years ago he was forced to retire from the harness business on account of his hearing and declining health. Since that time he has had severe spells of sickness, caused from kidney trouble, until a few weeks ago his system gave way and he became partially paralyzed and gradually grew weaker to the end.

"The funeral was held Friday afternoon, at two o'clock, from the home, Rev. W. C. Nash officiating. Interment was made in Evergreen cemetery.

"Mr. Hawk was born two miles west of Mechanicsburg in 1846 and lived there until he was married to Miss Laura Niswonger, May 29, 1873. Six children blessed the home, three of whom survive him, together with the mother. The children are Dr. H. E. Hawk, of Portsmouth, O.; Cleland Hawk, of Dayton; and Charles Hawk, of Wyandotte, Michigan.

"He taught school in St. Paris for seven years and for 20 years he conducted a harness business at this place. As township treasurer, treasurer of the light plant, and notary public, he has served the public most faithfully and efficiently. For many years he has been a member of the St. Paris, Methodist church and was a member of Pharos Lodge No. 255, F. & A. M., St. Paris Chapter No. 152, R. A. M.; Diamond Chapter No. 31, O. E. S., and St. Paris I. O. O. F. Lodge. A term of 22 years was served by him as Grand Scribe of St. Paris Chapter No. 132, R. A. M., which is an honor that comes rarely to anyone.

"In the death of Mr. Hawk the town loses one of its most highly re-

spected citizens. He was a straightforward business man and was ever found to be honest in his dealings."

**Mrs. Lydia Smith**  
Mrs. Lucy McNally, of Oakland avenue, received word of the death Saturday night of her sister-in-law, Mrs. Lydia Smith at her home near Manchester, Adams county. She had been suffering for some time past from cancer. She was the wife of John W. Smith, a prominent farmer and clerk of Monroe township and also leaves a number of grown children. Mrs. McNally, owing to an indisposition, was unable to attend the funeral which took place Monday.

## OUR OWN NEED.

We confess to a feeling of envy every time we take up a copy of the special edition of the *Intelligencer*, of Edwardsville, Illinois, which came this day. Not that we begrudge its able and successful editor and sole proprietor, Hon. Charles Boeschstein, anything he may achieve. Not at all, for our friendship with him began when the same year we two began our newspaper careers in nearby towns and when youth's blood ran warm and strong, and though years and distance have run long between since then, it is pleasant to know our affection for each other is just as sweet and true as in the days our future opened and bade us onward. So we glory in his triumph in getting out the handsomest and most interesting special edition we have ever seen, as in every one of the forty pages there is something of deep interest, even to the casual reader of the hour, and it will grow in value as a historical record so long as print and paper will last, while the printing is itself a superb illustration of skilled work. What then are we envious of? The frontispiece of the special edition, a life-like production, if we can say that of an inanimate thing, of the magnificent new Madison county court house, which Edwardsville will dedicate with much feeling this Monday. When we say the court house is magnificent, we speak advisedly and knowingly—because we have seen it with our own eyes. It departs totally from the usual "gingerbread" effect used in the erection of temples of justice as it is plain exteriorly, almost to severity, but its lines are graceful and imposing, and run on a composite of Grecian and Corinthian architecture, most effectively worked out in Georgia marble. The interior is simply beautiful. Its cost, including about \$70,000 for furnishing, was around \$300,000.

Gazing upon the picture of it makes us envious because Scioto county ought to have a court house approaching it, and a similar frontispiece in *The Times*, which always has and always will maintain that nothing is too good or fine for Portsmouth and Scioto county, would make us feel as though the ultimate in our newspaper work had been attained.

## A HIGH STANDARD.

Base ball is called the American national game. It is to be hoped it is well so called and it typifies the standard and character of the country.

The game is wholesome and unquestionably the cleanest of sports, being conducted on a high and honorable plane, accompanied by the keenest rivalry, both among players and spectators. It is the one pastime from which fraud and fake seem to be absolutely excluded. We have this excellent reputation most impressively maintained and given added lustre in the series for the national championship, just concluded between the Boston and the Philadelphia. While the game has been said to have lost much of its hold, yet never was there such intense interest displayed at any other time, if we may correctly judge from the attendance and the amount of money taken in at the gates. Tens of thousands could have been made by protracting the series just one game, but nothing of the sort was attempted and the best club, at least for a short spurt, won in the least possible time, after the first play.

If it be true, as claimed, that from reckless competition and the greed of individual players, the sport has gone into a decline, the fair and square manner in which the recent series was conducted will have much to do in revivifying it and the beneficial influence that a high standard always carries.

## AS AGE CREEPS ON.

Nature is kindly as age creeps on. She conceals from the object of her attack the real meaning of her warfare. She lays years upon him so lightly that he is actually bowed with the burden before he knows the load he carries comes from the seasons that are charged to him.

If a man were not allowed to see himself between the ages of, say, forty and sixty—if he were not permitted to gaze into a mirror at any time during the period—he would, indeed, be shocked by the changes that have been wrought in his appearance. But seeing himself every day, he notes no change.

Then, Nature is kindly with her compensations. As she lays on the burdens, she removes the desire for such things as can not so well be performed while carrying burdens. As she hardens the bones and draws the elasticity from the muscles, she removes also the impulses to run and jump and throw and romp.

And as she progresses with her subject, Nature sends a compensation for everything she destroys. With age comes meditation—the desire and the capacity to think more seriously; an appreciation of the beauties of the world she sends along with the years she gives to us. She causes us to appreciate more fully our associates, and to see in others greater virtues than we saw in younger days. So it can be said that instead of cruelly punishing the race by laying the years upon us, she is kindly in her attitude toward all.—Columbus Dispatch.

Big things are going on behind the curtain of the censorship in the Balkans and upon the outcome may hinge the result of the gigantic struggle that has convulsed Europe for the past year. If the Germans crush Serbia, the way to Constantinople will be open for troops and munitions and the next step will undoubtedly be the hasty evacuation of the Gallipoli peninsula by the allied troops, who now have but a precarious foothold.

## DON'T BLAME US FOR ANOTHER'S SINS.

We note with sincere satisfaction that Editor Harry Taylor, of *The Portsmouth Times*, has recanted. All the unpleasant things he has said of the sparkling frost and the wine of energy it instills in human blood are forgotten and forgiven, for the best of reasons.

Brother Taylor (bless him!) has had his artist draw a picture of him for his editorial page in which he complains that Jack Frost is loading on the job and hasn't "painted a tree yet" in "nature's colors yet." The frost, he says, has "guaranteed satisfaction" on the hills and in the dales, but has not yet done his work, and he is "hankering for Autumn's red and gold."

We knew it! And how delicately and modestly Brother Taylor has come across to the Lord's side and given up his foolish longing for blistering hot days, mosquitoes, flies, fleas, gnats and all the other summer nuisances!—Columbus Tribune.

H. W. Wendelken, engineer with the state highway department, and who has had charge of much of the state road work in this county, has been at Bluefield, W. Va., in attendance at the meeting of the Southern Appalachian Good Roads Association, sends us a copy of the program and souvenir books of Bluefield. The governors of half-a-dozen southern states were present and some of the best road experts in the country were down for practical talks on road building. It is interesting too, to note that the good roads movement is not confined to Ohio alone, but that it is practically a nation wide movement. The southern states which have been lagging in the matter of highways, are waking up and before long they will have as good roads as anybody.

There is only one thing to buying an automobile. Have the money to put into it, then pick out the make that appeals to you. There are plenty of good cars on the market and some one make will have peculiar qualities that will strike you. That is the car to buy. If you do not buy it you will always wish you had and you will never be perfectly satisfied with what you did buy. But if you do buy the make that strikes your fancy you will be certain to feel that you have the very best car on the market and it will add to the joy and pleasure you will get out of motoring.

It must be a fine thing to be a high salaried European war correspondent. All they have to do is to hang out in some large city about fifty miles behind the firing line and copy official reports to send out over the cable. The real news is not allowed to be sent until it is history and by that time the rest of the world knows it too and is not interested. If they would only turn the war correspondents loose however, there would be some mighty interesting inside facts about the real status of the war being printed.

Our imports in August, 1914, amounted to \$129,747,890 as against \$141,830,202 in August, 1915. The increase was in crude material for manufacturing. Our exports in August, 1914, were \$108,198,262 while in August, 1915, they were \$257,065,921. The largest gain was in manufactures ready for consumption.

Why is it that hangings have such attraction for people? Here in civilized Illinois, at a town named Murphysboro, 2,000 gathered to witness the strangling to death of a man convicted of murder. Two thousand other people were unable to gain admission.

We have spoken to the paste board man in Tritschler's show window so many times thinking that it was the boss of the establishment that we have decided to cut the real boss off our speaking list unless he speaks first.

NEW-YORK-DAY-BY-DAY.  
BY O. O. MCINTYRE.

New York, Oct. 18.—'Tis a strange world indeed. Some time ago some good lovable Nuts, engaged in uplifting this world, plucking flies from thistles, spinning ropes of sand, razing the grind stone and hailing the cat, had a meeting in Union Square—the Meeva of the soap box silver tones.

These uplifters ventured to say that perhaps all was not for the best in the best of possible worlds. A few more courageous lifted their voice until it could be heard by the jolless sleepers in the park, but no one was disturbed yet the uplifters were elated, pinched and thrown into the elink.

Just now during the noon hour little groups of war agitators bawl treason in broken English, harangue the president, defy the government and with every breath wound insults upon the country whose bread they eat. There are a lot of simple minded folk who would like to know why these traitors are not slammed into the cooler.

"Yes," said a big strapping English actor at the Laubis, "I tried to get in the British army, but couldn't pass the physical examination. The doctor said I had a floating cartilage in my foot and water on my knee."

"Why didn't you try the navy?" asked Willie Collier. The coroner at Hempstead has found that no one was to blame for the death of Frank Holt, who shot Morgan. The only blame was placed on gravity and it seems that it is unimpeachable.

J. Wade McGrath, of the New York, moved from New York to Cleveland a few weeks ago and was forced one night to stop at a small cross roads hotel in Pennsylvania for the roads were bad. It appears that the landlord of the hotel was reckoned the meanest man in the country.

He kept everything under lock and key, and there was no chance for a casual caller to get pen, ink or soap, or anything else free. The night McGrath arrived a boy from the depot called with a message and looked at the old time piece which hung on the wall.

When McGrath sent down the next day a large sign hung over the face of the clock. It read: "This clock is for the use of the hotel only."

Lew Bailey owns a fighting club in Philadelphia and the other day "Tad" the cartoonist, went down

to visit him. Bailey believes in giving his patrons a dollar's worth of fight. Fans in the Unconscious City do not like to pay much for little.

The night that Tad was there the club drew a big crowd and Lew wanted it to be a big fight so that the patrons would return. He called in the warriors for the first skirmish and told them to go to it. They fought like whirlwinds for the first five minutes and then slowed up. Some one yelled in the gallery asking if they roomed together and one in a falsetto voice cried: "Stop the wanton brutality!"

Finally Lew, who was to slip the winner five dollars, slid down to the ringside and barked: "Come on there—a little speed." One of the gasping boxers lifted his head and with a withering glance at Bailey said: "Whadda you want for five bucks, a Civil War?"

"Why do you weep little one?" It is a subway passenger speaking to a fair young thing in the Seventy-Second street station. "Kid girl," she sobbed, "a bad man jostled me in the train. He cut my stocking open and I am shy seven iron men—and—hoo—hoo—sniff—sniff—besides me foot hole."

"Take off your shoe and see what's in it," counselled the stranger. She did, and there was a diamond on which one might raise maybe 200 seeds.

"Oh, joy," she cried, "it was the bad man who lost it. Isn't he shung?"

So Could We Little Bob—A.W. I could walk the rope just as well as the man in the circus, if it wasn't for one thing.

## Meeting At Fullerton

A. S. Cooper, Republican candidate for Representative in Greenup county, Kentucky, will hold a meeting in Fullerton, Wednesday, October 20th.

## Getting Ready For High Water

The N. & W. railway has two pile drivers at work on the flood protection embankment it is building on the Scioto river north of Vera. A big force of men is engaged on the job, which it is hoped to complete before bad weather sets in.

Thomas A. Sheridan, of the contracting firm of Sheridan and Kirk, motored to Columbus Sunday with a party of friends.

## IF HAIR IS TURNING GRAY, USE SAGE TEA

Don't look old! Try Grandmother's recipe to darken and beautify faded, lifeless hair.

First beautiful, even shade of dark, glossy hair can only be had by brewing a mixture of Sage Tea and Sulphur. Your hair is your charm. It makes or mars the face. When it fades, turns gray, grizzled and looks dry, wispy and severely, just an application or two of Sage and Sulphur enhances its appearance a hundredfold.

Don't bother to prepare the tonic; you can get from any drug store a 50 cent bottle of "Witch's Sage and Sulphur Compound," ready to use. This can always be depended upon to bring back the natural color, thickness and lustre of your hair and remove dandruff, stop scalp itching and falling hair.

Everybody uses "Witch's" Sage and Sulphur because it darkens so naturally and evenly that nobody can tell it has sponge or soft brush with it and draw this through the hair, taking one small strand at a time; by morning the gray hair has disappeared, and after another application it becomes beautifully dark and appears glossy, lustrous and abundant.

Little Boy—I ain't watchin' 'em play; I'm waitin' till the game's over ter lick de capt'n.

Catsup It isn't all tomatoes, dear. Nor seasoning and spice; A pinch of this, a pinch of that, With savor sharp and nice. But half of it is memory. Of fields of fruit and vine; And music of the birds above. And in this heart of mine.

It isn't what you think it is, Nor what you thought was there, But dreams are in it of the hills And of the valleys fair; And songs are ringing through it sweet.

Of days and weeks of bloom, Of April showers and August sun And autumn's golden plume.

And when you fill the bottles, dear, A fairy helps you pour In every one a pinch of sun And cups of out-of-door.

So, when we dip our meat in it, Some snow-bound dinner-time, We'll find a breath of June in June To April's heart of rhyme.—Exchange.

So Could We Little Bob—A.W. I could walk the rope just as well as the man in the circus, if it wasn't for one thing.

Little Willie—What is that? Little Bob—I'd fall off.—Harper's Bazaar.

Dad's In For It Mrs. Walter Jenkins was up a few days cleaning up the old man who had become a little seedy since his mother had left for a stay with her daughter in Wayland.—Clark County (Mo.) Courier.

Maybe it is Hidden Under the Stamp H. C. Bilson will this week enlist in the army of motorists. The new car, Ford by name, was to have been here yesterday. But my parcel post package is apt to be delayed a day or two.—Burr Oak (Mich.) Acorn.

No Time for Fletcherizing Cricket Hicks bought 15 cents worth of bologna and ate it on the porch of the postoffice Saturday morning. He had to eat fast, he says Slim Pickens coming.—Hogswallow Kentuckian.

Whaddaya Mean "Bedouins" Earl MacCormac expresses the gratitude of his wife for the many words of cheer during her recent illness from the Bedouins.—From the Billboard.

Some Solace The leaves are sober; The fields are dry; But still October Brings pumpkin pie.

Suspicious Tommy (after a thumping)—You're awful hard on me, ma. Mother—That's because you've been very naughty and wicked. Tommy—Well, gee; you should remember that you didn't do young yourself.—Boston Transcript.

Anti or Ante Wife—Don't you think I should have a vote? Husband—I dunno, Jane. You'd probably want a new hat to wear at the polls.—Denver Republican.

Tit For Tat Six p.m. He—Why isn't dinner ready? She—You didn't marry a cook. Two a.m. She—Wake up, John; there's a burglar down stairs. He—You didn't marry a policeman.

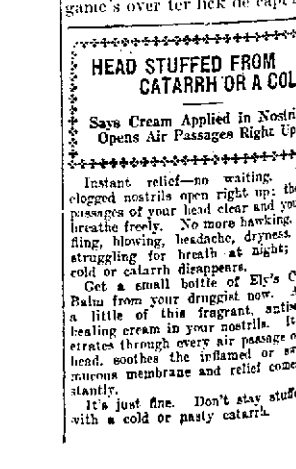

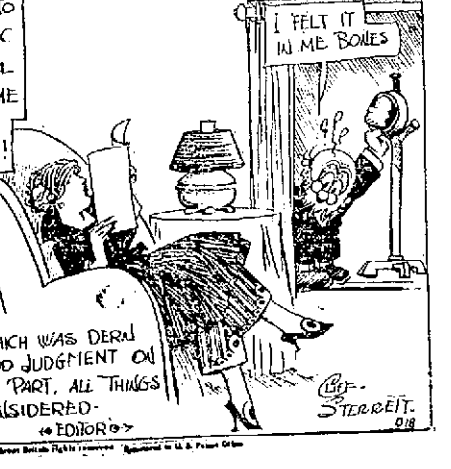

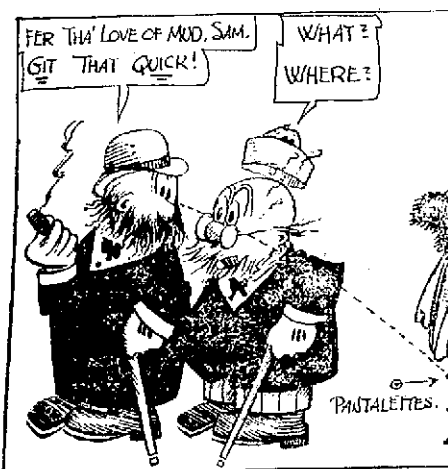

His Way of Revenge Old Lady—Why are you not playing ball with the other little boys? Little Boy—I muffed or dy in it 'lef' field, an' 're capt'n' chucked another feller in me place.

Old Lady—I wouldn't watch they play if they treated me like that. Little Boy—I ain't watchin' 'em play; I'm waitin' till the game's over ter lick de capt'n.

HEAD STUFFED FROM CATARRH OR A COLD Says Cream Applied in Nostrils Opens Air Passages Right Up Instant relief—no waiting. Your clogged nostrils open right up; the passages of your head clear and you can breathe freely. No more yawning, snoring, blowing, headache, dizziness. No struggling for breath at night; you cold or catarrh disappears.

Get a small bottle of Ely's Cream Balm from your druggist now. Apply a little of this fragrant and active healing cream in your nostrils. It penetrates through every air passage of the head, soothes the inflamed or swollen mucous membrane and relief comes instantly. It's just fine. Don't stay stuffed up with a cold or nasty catarrh.

# THE MARKETS

### NEW YORK STOCKS

New York, Oct. 18.—Firmness marked the resumption of trading today, with some very substantial gains, particularly in specialties. Foundation was given to the movement by the strength of U. S. Steel, which opened with an advance of 5000 shares at \$33, an advance of 1/4. Westinghouse made an initial offering of 3,000 shares at 70 3/4 to 71, a maximum advance of 1 1/4. American Smelting, American Car, Baldwin Locomotive and Crucible Steel were materially higher. Canadian Pacific and Harriman's led the rails.

Dealings were moderate during the forenoon but specialties added to previous gains with these new records: Bethlehem Steel 11 1/2 to 49 1/2; Willys-Overland 10 to 23 1/2 and U. S. Industrial Alcohol 7 1/2 to 10 1/2. Other pronounced gains included Bethlehem preferred 8 1/2 to 17 1/2, General Motors 10 to 37 1/2, Studebaker 4 1/4 to 16 3/4; Virginia Iron, Coal and Coke 3 1/4 to 6 3/4 and Westinghouse 2 3/4 to 7 1/4. Incidentally U. S. Steel extended its rise to 83 1/4 and Canadian Pacific 4 to 16 3/4, with further improvement in other railroads.

Later Bethlehem common reacted to 48 1/2 and Baldwin showed a loss. Bonds were firm.

Steel's further advance to above 85 1/4 was the chief development of the final hour, with increased strength in other industrials. The closing was strong.

Specialties regained much of their recent prominence today with numerous gains and a few new records. Rails were in better demand at moderate advances.

New York, Oct. 18.—What is said by grain men to be the largest movement of Canadian wheat through the United States that has ever been recorded is now going on through this port. Records of the produce exchange compiled to, and including Friday, October 15, show that 4,265,791 bushels have been brought here from Canada since the early part of August and reloaded on steamships for shipment, mainly to England, France and Italy. This wheat in order to avoid the payment of a duty of ten cents per bushel, comes through in bond.

The Canadian wheat crop, estimated by grain men for this season at approximately 332,000,000 bushels, is one of the largest in the history of the Dominion, and compares with 256,000,000 raised last year. The increased acreage is not only due to a favorable season but also to a general spurring up of Canadian officials to provide the mother country and allied nations with a wheat crop to take the place of that normally imported from Russia and the Balkan states.

(Continued From Page One)  
late today by Attorney General Turner. Donahy had held up the pay on the ground that they were not legally appointed under the civil service law and that the state might be still liable to pay the salaries of those whom the provisional appointees succeeded.

**Were Legally Appointed**  
Columbus, Oct. 18.—Attorney General Turner gave an opinion to Governor Willis today saying the ten members of the state board of agriculture were legally appointed and need not be re-appointed now under an amendment to the Smith-Mallow law, as State Auditor Donahy contended they should be.

**Not Candidate For Governor**  
Columbus, Oct. 18.—"I am not a candidate for governor nor any other office," said Secretary Renick W. Dunlap, of the state board of agriculture today. "The report is very embarrassing to me, but it is entirely without foundation," he added.

**Appointments Are Made**  
Columbus, Oct. 18.—J. E. Haverside of Cleveland, Republican, was appointed index clerk in the office of secretary of state today to succeed David Pettigrew, of Springfield, removed several weeks ago.

## TO OBSERVE POTATO DAY

Columbus, Oct. 18.—A movement to observe Thanksgiving Day, November 25, also as "Potato Day," was approved today by Secretary Renick W. Dunlap of the State Board of Agriculture. Nov. 12 will be known as "Agriculture Day" in Ohio.

Don't forget the Jitney dance at the Elks' new home Tuesday night. Everybody welcome. adv 18-1

## WOMEN ARE

(Continued From Page 1.)  
ers and other workers went over the battlefield today.

Less spectacular but none the less thoroughly organized was the campaign conducted by opponents to suffrage. Party lines have been obliterated in the contest. Democrat and Republican leaders are working both for and against the cause. Some suffrage workers feel that both organizations are quietly opposing them.

Women watchers and workers to the number of 5000, admitted to the polls at the forthcoming election for the first time in the state, received their final instructions today and prepared to take their places tomorrow at virtually every one of the polling precincts in the state.

## Body Is Found Along C. & O. Tracks

The lifeless and mutilated body of Joseph Redden, Jr., son of Joseph Redden, of Vanceburg, Ky., was found Sunday morning, at 5:30 o'clock, at the C. & O. tower in Vanceburg. Bath of Redden's legs were cut off and his left arm was crushed off. It is presumed that he was run down and killed by a C. & O. train, although there were no eye witnesses to the fatality.

Redden, who was known as "Joey," was last seen at 10:30 Saturday evening, when it is claimed that he started for the C. & O. tower, where he slept. His body was found by Charles Bertram, a C. & O. operator, who was on his way home when he almost stumbled over Redden's body.

Redden was 18 years old and had been employed at the various livery barns in Vanceburg.

The victim had relatives here, being a cousin of Henry Redden, of the Elk building, and Mrs. George Lawhorn, of Tenth and Offshore streets.

Redden was at one time employed here by the Selby Shoe company and during this time made his home with James Ferguson, of 309 Front street. Redden was an industrious young man and is said to have \$300 in the bank saved from shining shoes.

## Car Hits Wagon

A Hilltop street car in charge of Motorman Andrew J. Workman and Conductor Frank Bennett collided with one of Contractor S. Monroe & Son's sand wagons at Twelfth and Finlay streets Monday morning. One of the horses was knocked down, but was not injured and only slight damage resulted to the tongue of the wagon.

## Boy Trespasser Killed By N. & W. Train

William Wilson, 15, son of Richard Wilson of Hanging Rock, Ohio, was found along the N. & W. tracks just below Hanging Rock station Sunday morning about eight o'clock by several small boys who were walking down the track. His left leg had been cut off, his right foot mashed

and he had a severe scalp wound.

The injured lad, unconscious, was taken to Keller hospital, Ironton where he died at six o'clock Sunday evening.

It is thought he attempted to jump a freight train that passed through Hanging Rock about 7 o'clock Sunday morning.

## SLEUTHING ENDS WHEN BARBER IS CAUGHT IN 'AFFINITY'S' HOME

Weeks of quiet and determined sleuthing on the part of his vigilant wife with the co-operation of the police were rewarded when Albert Edgington, a well known barber employed at the Washington hotel shop, was surprised at the home of his alleged "affinity," Miss May Rockwell in a Gallia street flat late Saturday night.

Mrs. Edgington had previously filed affidavits against her husband and the Rockwell woman, charging them with disorderly conduct. When officers first visited the house between 8 and 9 o'clock Edgington was there but the young woman was absent. A return trip was made shortly after 11 o'clock and both were found to be in the house. Edgington was in bed and claimed to be suffering with an attack of pneumonia.

Police ordered him to get up and accompany them to headquarters but he had his physician, Dr. Carl Braunlin, summoned and the doctor advised against his removal.

Accordingly he was permitted to remain, Miss Rockwell furnishing bond for their appearance in court.

Mrs. Edgington was notified by the officers that they had at last succeeded in catching the pair together. Hurrying to the Rockwell apartments. In their years of experience the raiding officers declared they never before heard such a berating as that to which the wronged wife subjected her husband and his alleged lover.

"Do you want him? Do you want him? I'm through with him," she fairly shrieked as she pointed at the Rockwell woman.

The latter for a time hung her head in shame but finally declared Edgington "looked good" to her. This still further aroused the wife, who accused her of stealing the affections of her husband, alienating him from her and her three little children, leaving her without any money even for house rent. The Rockwell girl's mother sat by in silence throughout the tirade.

Edgington was still bedfast at the Rockwell apartments Sunday night and was reported to have suffered several fainting spells. He retained Attorney B. P. Kinke to look after his interests.

Mrs. Edgington had been camped on her husband's trail for the past month or two. She reported before he could approach any closer. Another officer took up the vigil the next night and the identity of the woman was finally established. Edgington began keeping late hours, according to the wife, and finally spent nearly all of his time away from his home and family, it is claimed.

The family resided on Third street, east of Bond. A baby was born to them just a few months ago. Both Mr. and Mrs. Edgington formerly lived at West Union, Adams county. Mrs. Edgington before her marriage was Miss Florence P. Foster.

Mrs. Edgington created quite a scene just before the time for court to convene Monday when she discovered that Miss Rockwell was not present to answer to the affidavit against her. Sobbing bitterly she demanded that this woman who she said had broken up her home, be made to appear and to satisfy her the court ordered Miss Rockwell brought in at 1 p. m., although her bond of \$25 was declared forfeited. Edgington left the court room at once but his parents remained behind to assist their daughter-in-law home with her three little children.

When the case was called up again Monday afternoon relatives and friends made determined efforts to bring about a reconciliation between Mr. and Mrs. Edgington. The mayor too offered to pass up the case provided the couple would bury their differences for the sake of their handsome young children but the wife firmly refused to listen to the proposal, saying she had already broken up housekeeping and would return to her people at West Union. Judge J. Z. Blair wanted the court to defer action in the case for a month to give Edgington an opportunity to amicably adjust his affairs but the court declined and imposed a fine of \$25 and costs. The Rockwell woman failed to appear but a fine of \$25 and costs were assessed against her and this will be taken out of the \$45 bond she had previously put up.

## A NERVE TONIC

In many severe nervous disorders the best remedy is often a tonic. The most active tonic treatment is recommended by the highest medical authority to arrest the progress of such diseases.

It is impossible to reach the nerves directly with medicine. Dr. Williams' Pink Pills are a nerve tonic but they act on the nerves through the blood, enabling the blood to carry to the nerves the elements needed to build them up.

Neuralgia, sciatica, sick headache, a number of more severe nervous troubles are properly treated by building up the blood with Dr. Williams' Pink Pills and are often entirely corrected in this way.

If you are nervous you can help yourself by refusing to worry, by taking proper rest, sleep and vacations, by avoiding excesses and by taking out-of-door exercise. For medicine take Dr. Williams' Pink Pills, the non-alcoholic tonic.

Sufferers from nervous disorders who have been taking treatment without benefit should investigate the tonic method. Write today to the Dr. Williams' Medicine Co., Schenectady, N. Y., for the booklet, "Diseases of the Nervous System." It will be sent free on request.

Your own druggist sells Dr. Williams' Pink Pills or they will be sent by mail on receipt of price, fifty cents per box, six boxes for \$2.50.

It is clear that, although the battle which General Von Ivaloff is fighting continues with varying success, the Germans have been unable to establish themselves on the eastern bank of the river Stripa.

When the case was called up again Monday afternoon relatives and friends made determined efforts to bring about a reconciliation between Mr. and Mrs. Edgington. The mayor too offered to pass up the case provided the couple would bury their differences for the sake of their handsome young children but the wife firmly refused to listen to the proposal, saying she had already broken up housekeeping and would return to her people at West Union. Judge J. Z. Blair wanted the court to defer action in the case for a month to give Edgington an opportunity to amicably adjust his affairs but the court declined and imposed a fine of \$25 and costs. The Rockwell woman failed to appear but a fine of \$25 and costs were assessed against her and this will be taken out of the \$45 bond she had previously put up.

## DELEGATES GIVE THEIR SIDE OF LABOR UNION CONTROVERSY

## ARCHBISHOP REPUDIATES SO CALLED "CATHOLIC PROHIBITION LEAGUE"

The Cincinnati Enquirer of Sunday contained the following: Archbishop Moeller, ranking prelate in the hierarchy of Ohio, yesterday repudiated the so-called Catholic Prohibition League of Ohio and stated that the organization's use of the name Catholic is misleading, unwarranted and unauthorized. "I know that I have not approved any organization of that character, and I can say the same for Bishop Hartley, of Columbus; Bishop Schramm, of Toledo, and Bishop Farrelly, of Cleveland.

Catholic church is supporting this movement bears out this fact and is a palpable fraud.

"As the head of this metropolitan See, I wish to emphasize that no Catholic layman or priest has the right to use the name of the Catholic church as an indorsement of any movement without the sanction of the Bishop of the diocese in which he resides. The Bishops are the proper authorities to say what is Catholic and what is not. The Bishops of Ohio have not as yet delegated this authority, and it is certainly unbecoming, to say the least, for those in no way associated with the church to make unwarranted use of its name to further their hobbies.

"For the reasons stated above, I absolutely repudiate the so-called Catholic Prohibition League of Ohio and condemn the same in so far as the use of the name Catholic may indicate that it has the official sanction of the church or the hierarchy of this state."

**Columbus Prelate Quoted**  
The Archbishop then called attention to an utterance in which that prelate says that "The Catholic Prohibition League is the con-

tradition in terms adopted by a new set allied to the Anti-Saloon League. How strangely out of joint is the word Catholic in such an association. The old heretical sect of the manichees, undone by the logic and eloquence of St. Augustine, finds its counterpart or our own soil in the prohibition party." Speaking of the attempt of some Catholics to bring the church into politics, the Columbus prelate says: "How wanton and false are the movements of those who would dishonor their royal mother by attempting to make her a scullion in political trickery."

A. A. Oakes Pres. S. C. Br. W. P. P. A. Adv.  
Vitality used on an animal work by Brehmer, the Painter. 11f

Portsmouth, Ohio.

Oct. 18, 1915.

Editor Times,  
Dear Sir:—Kindly allow us enough space in your valuable paper to answer the letter of Mr. P. D. Landemann, which you carried in Saturday's Times.

Mr. Landemann, in his letter, wished to convey to the people of Portsmouth that this is a wet and dry fight, which is absolutely an untruth. It is simply a union affair, the organized labor circles of this city being in a great state of unrest.

Mr. Landemann stated that the Grievance Committee of the Ohio State Federation of Labor completely exonerated him, which is another untruth, the Grievance Committee sentencing him rather than delay the convention for another day. The written report of the committee reading that they made a recommendation that the charges be dismissed for lack of sufficient evidence to convict.

Mr. Landemann, in his statement, failed to mention the fact that in the verbal report of the Grievance Committee they highly recommended the Portsmouth delegates in making the protest they did as there was sufficient evidence produced to show that there was a movement on foot to disrupt organized labor in the city of Portsmouth.

If this had been a wet and dry fight as Mr. Landemann wished to make it appear, why were not the other delegates who were recorded against the wet resolution, hissed and hooted from every corner of the hall as was Mr. Landemann?

While we are very much grieved at the necessity of exposing the discord that exists in organized labor of this city, we are determined, cost what it may, to weed out those who are, and have been for some time, working detrimental to the cause of organized labor, and thereby let Peace and Harmony once more reign in the ranks of organized labor and if Mr. Landemann wished to consider this "steeping low," we shall continue to "steep low."

It is a well known fact that neither Mr. Oakes (whom Mr. Landemann brings in in his letter) nor Mr. Landemann can say that they have on many occasions, made slanderous attacks upon the officers of Central Labor Council to bring them into disrepute and cause a disruption in the ranks of organized labor. Mr. Landemann can not say this fact.

Regarding Mr. Landemann's statement that some outsiders drew up the protest against his son, we must say that no outsider drew it up, the author being one of the signers.

In regards to Mr. Burdick saying that Mr. Landemann's influence is so great among the machinists that they are afraid to say anything against him is true. Mr. Burdick again says that different members of the Machinists' Union have said that very thing.

Mr. Strong wishes to say that Mr. Landemann's reference to what he said before the Grievance Committee is false. He did not say that the only reason he had signed the protest was that the machinists had withdrawn from Central Labor Council. He did say that that was one of the principal reasons and as far as being a wet and dry fight Mr. Strong said before the Grievance Committee that he was opposed to the wet and dry fight, being brought into organized labor in any form whatever.

We are, indeed, very glad to read that Mr. Landemann has acknowledged that there is a secession movement in Central Labor Council and has found it necessary, as we understand it, to plead guilty to being a party to such a movement.

Mr. Landemann referred to the "One Day's Rest in Seven" in his attack on the Sunday movies, which we consider was well answered before the Grievance Committee and instead of it being detrimental to labor it would be a help, as since the passage of the resolution by Central Labor Council, the proprietors of the picture theatres have said that had the theatres been allowed to open they would have employed another operator, working each operator every second day and paying him the regular weekly salary, thereby employing an extra operator in each theatre.

In regards to Mr. Landemann's reference to the political activities we only wish to say that Central Labor Council is determined to let no party politician use it as a club against his opponent.

In regards to Mr. Landemann's activities in Central Labor Council, let this tell how active he has been. Mr. Landemann was appointed chairman of the Labor Day Committee at the meeting of March 15th and a meeting of the committee was held the following week and Mr. Oakes was elected secretary. No more meetings were held until late in June, when arrangements were made with the Street Railway Co. for the use of Millbrook Park.

Then nothing followed until the meeting of Central Labor Council on August 16th, when a report of the Labor Day Committee was demanded and Kuhn and Turner, other members of the committee reported that nothing had been done and that Landemann had not called any meetings, and while other members of the committee were anxious to hold a Labor Day celebration this year, several suggestions made by other members of the committee were always "killed" by Mr. Landemann and he refused to call a meeting and that was really the main reason why Portsmouth's Labor Day celebration for 1915 was called off.

Mr. Landemann stated that he felt that had been a wet man he would have been one of the good fellows, but we wish to say that wet or dry he would not have been given the glad hand of fellowship until he ceases his antagonistic methods and his slanderous attacks upon the officers and delegates of Central Labor Council, but as soon as he shows that he is willing to work in harmony with the officers and delegates our hands are out to him, no matter how wet or how dry he may be.

# Miss Dolly Wise

She is here to answer any and all questions concerning love, matrimony, troubles, woes, etiquette, etc. Inquiries should be addressed to Miss Dolly Wise, care The Daily Times, Portsmouth, O. Office Phone 62.

Dear Miss Wise.—Do you think a man who is in debt several hundred dollars ought to get married? I was thinking of tying up, but I haven't a cent of money saved. Do you think I ought to wait until I have some money saved?

A YOUNG MAN.  
You will have to decide this question for yourself. However, I think that before a man takes such a serious step he ought to make a strenuous effort to free himself from debt. The financial burdens of maintaining a home, furnishing it and providing necessities will probably tax your income sorely without assuming past obligations. It seems to me further, that you should have some money saved both to assure you against reverses in the future and also to help in fitting up your home. I would suggest, if it is at all possible, that you wait until you have as much to your credit as you now owe.

Dear Miss Dolly.—I am awfully disappointed and I want you to help me out. I had a very dear boy friend until another girl came between us. He lived in our neighborhood and took me every place I wanted to go. The "other girl" moved into our neighborhood lately and she has captured him completely. He hardly ever notices me any more. She is a nice looking girl, dresses better than I can afford to and also has a big living room and a phonograph with which to entertain him. How can I get him back? I think lots of him.

BLUE EYES.

If you are careful not to let the boy know that you care for him, I think you stand a great deal of show of winning him back. The

newness of the other girl and her material attractions will hold him for a time, but unless she has something besides a phonograph, clothes and a big living room to attract him, he will tire of her and want to go back to you again. In the difference on your part will help matters along better than anything. Although he does not go with you himself he will not want any one else to. Go out with your friends and have the time of your life, if you can; and if you can't, pretend to have. Be friendly to the other girl and don't show in the slightest way that you are jealous of her. Clothes count for something, of course, but they are not so powerful as personality to attract. Dress simply and be animated, and you will get along all right.

Dear Miss Wise.—Is Francis X. Bushman, the movie star, married or single?

FANNETTES.  
He is married—very happily, and has several children.

Dear Miss Wise.—I am a daily reader of your column and would like to ask a question. I am elected president of a society and it is the first time I ever held office. As I am supposed to make a speech, I do not know what to say, so please advise me.

IGNORANT.

Simply say that you appreciate the honor they have conferred on you in electing you to act as president and that you will fill the position to the best of your ability, hoping to serve them as faithfully as the former president did. If you have any ideas for the year's work or activities outline them and explain what you hope to accomplish while in office. Don't say very much, it is not necessary.

Dear Dolly.—I have asked you several questions and have always had such good answers. I again appeal to you. I am 18 years old and am invited to a Halloween mask party. Could you tell me some nice way to mask?

MARIE.

Wear a black domino. A pattern can be had at any department store and it will require only

a few yards of any cheap material to make. You might use black and white calico with pom-poms of the contrasting color.

Dear Miss Wise.—Can you tell me the states in which statewide prohibition is in effect, and if year it was adopted in each state?

A READER.  
Maine, 1851; Kansas, 1880; North Dakota, 1889; Georgia, 1907; Oklahoma, 1907; Mississippi, 1908; North Carolina, 1908; Tennessee, 1909; West Virginia, 1912; Virginia, 1914; Colorado, 1914; Oregon, 1914; Washington, 1914; Arizona, 1914; Alabama, 1915; Arkansas, 1915; Iowa, 1915; Idaho, 1915; South Carolina, 1915.

Dear Miss Wise.—I have some green paint on a dark green poplin suit. How can it be removed without taking the color from the goods?

ETHEL.  
Benzine will remove the paint, even when the spots have dried into the stuff. Apply freely; leave for an hour and renew. It is likely that a blurr may remain after the paint is gone. Sponge it with pure alcohol. Should the color suffer from the process, sponge with household ammonia. There ought to be no stain when all this has been done. Or soak the paint soft by pressing upon it a sponge wet with alcohol and scrape the softened paint off carefully. Then sponge with a mixture of equal parts of ether and alcohol and touch with household ammonia.

Brownie.—I think your parents are right. You ought not want to run the streets every night. If it is absolutely necessary for you to go out certain nights you ought to be satisfied to stay home at least one or two evenings each week. You can pass the evening in reading, sewing or getting acquainted with your parents. It might be a good thing for you to change positions. If you were in a place where you had to work all day you would be glad to stay home and rest of evenings. Then too you would find ever so many little things to do for yourself that you would not want to be always "on the go."

## A Varnish That Will Stand This Will Stand Most Anything

VALENTINE'S VALSPAR

This quick lunch counter in York, Pa. was varnished with Valspar in 1910. The restaurant never closes, night or day, and for five years hot and cold dishes, water and fruit acids, hot coffee and tea have been shining across it. It's been splashed and washed and scalded, but after five years the Valspar varnish is still there and looks well. Valspar lasts longer on wetting surfaces than other varnishes turn pale, become brittle and shortly after disappear entirely leaving the shabby, bare wood. You can have a sanitary kitchen, a waterproof bath room, or a front hall door and floor that won't develop shabby spots if you use Valspar. We sell it—and guarantee it to be satisfactory or your money back. Printed instructions for using Valspar correctly and a set of beautiful Valspar Poster Stamps can be obtained from us free of charge.

# WOMAN THROWN FROM BUGGY: NECK IS BROKEN

## Daughter Witness To Fatal Accident

Death in tragic form overtook Mrs. Jacob Schuster, a well-known resident of Pike county, who resided three miles south of Piketon while she was driving her daughter Hazel to high school in Piketon, Monday morning.

The horse Mrs. Schuster was driving took fright while driving down what is known as Pike Hill near Piketon and both Mrs. Schuster and daughter were thrown from their buggy. Mrs. Schuster's head struck the railroad track and her neck was broken, her death being instantaneous.

Miss Hazel Schuster was also badly injured in the runaway. The family is one of the best known in Pike county and the news of Mrs. Schuster's tragic death and serious injuries suffered by her daughter in a runaway accident caused a sensation in Piketon and Waverly, where the news quickly spread.

Mrs. Schuster's body was removed to Fred Kress' undertaking establishment in Piketon and the coroner of Pike county was notified.

Mrs. Schuster in addition to her husband is survived by three daughters. She was a most estimable woman and was 47 years of age. Her maiden name was Miss Mary Lillick. A regrettable feature in connection with the deplorable fatality is that just two weeks ago Mrs. Schuster's mother died.

Mrs. John Lillick, of Findlay street, and Mrs. George Herder, of Ninth street, this city, are aunts of Mrs. Schuster.

## Vote "No" Prohibition

### SEPARATE BALLOT

ELECTION, NOVEMBER 2, 1915

Vote No	Proposed Amendments to the Constitution	
	Yes	No
		ARTICLE XV, SECTION 9 Prohibition of the Sale and Manufacture for Sale of Intoxicating Liquor as a Beverage.
		ARTICLE X, SECTION 2 To fix the Terms of all County officers at Four Years, to provide for their Election Quadrennially, and applying the Amendment to Incumbents.
		ARTICLE XII, SECTION 12 To exempt Bonds issued on or after January 1, 1916, of the State of Ohio or any subdivision or District thereof authorized to issue Bonds from Taxation.
		ARTICLE XVI, SECTION 4 To limit Elections on Twice Defeated Constitutional Proposals and to prevent the abuse of the Initiative and Referendum.

## If Prohibition Were Adopted

Property valued at \$460,000,000 would be confiscated without compensation.

100,000 men now employed in the liquor and allied industries would be thrown out of jobs.

Taxes to the amount of \$32,000,000 annually would be lost. The liquor business in Ohio pays \$15,000,000 every year to the State and its subdivisions, and \$17,000,000 a year to the Federal Government.

Farmers' markets aggregating \$8,576,872 would be closed. This is the value of farm products annually used in the liquor business in Ohio.

The Legislature would be called in extra session to enact new search and seizure and prohibition laws.

Prying "dry" detectives would "investigate" homes and persons.

The present excellent system of licensing and regulating the retailing of wine, beer and liquors would be wiped out.

## A Common Sense View of the Liquor Question

The Cleveland Plain Dealer, one of Ohio's strongest dailies, and absolutely independent of either the "Wet" or "Dry" organizations, in an editorial published in its issue of Saturday, October 9, 1915, declares AGAINST Prohibition. After quoting the proposed Prohibition Amendment the Plain Dealer says:

"Such is the dry amendment to the constitution of Ohio upon which the voters are to pass judgment at the coming election. The measure is clear, explicit and concise. There can be no issue over its interpretation.

"Ohio voted on practically an identical amendment one year ago and defeated it decisively. Cuyahoga county's majority against it was nearly 45,000. Hamilton county rejected it by a majority of more than 75,000. The populous centers generally register opposition to the dry proposal.

"It may be worth while to turn again to Section 9 of the present constitution, which this dry amendment would repeal and supplant. This section was voted into the organic law of the state in 1912 and provides the basis of law upon which the liquor business in Ohio is now operated. The section reads:

(The section is quoted at the bottom of this advertisement.)

"That amendment merits re-reading occasionally. Its adoption three years ago abruptly changed the policy the state had followed for more than sixty years and substituted license and regulation for the former scheme of denying the traffic legal recognition while continuing to legislate against the evils resulting from it.

"The ratification of this amendment of 1912 was the triumph of a compromise proposal. As agreed upon, it represented less in one direction than the ultra-drys wanted and less in the other direction than the wets desired. In the campaign it was supported both by wets and drys.

"Ohio's larger cities are not ready for prohibition. And no law can be enforced in local communities whose public sentiment is overwhelmingly hostile. Every one of the more populous centers in the state is opposed to complete prohibition. There, if nowhere else, this dry amendment would almost certainly become a mockery.

"Under local option laws firmly supported by public sentiment it is possible for any township, any municipality, any residence district within a municipality, to keep saloons out. The system is thoroughly workable. It is in no wise jeopardized by a continuation of the present license provision. No community need be or remain wet against its will.

"In essence the dry proposal is this: That the hundreds of dry communities through the state shall put upon wet centers like Hamilton, Cuyahoga and other populous counties the burden of enforcing a law which these centers do not approve. The task would be impossible, with sentiment as it is today.

"We believe that the more populous centers of Ohio are not yet ready for state-wide prohibition. To adopt this dry amendment now would mean the substitution of an unworkable provision for one that has proved both its worth and its enforceability. The Plain Dealer, while recognizing in full the privilege of each elector to decide the issue for himself, recommends that the dry amendment be rejected."

## Prohibition Would Repeal This Satisfactory License Section of the Ohio Constitution:

License to traffic in intoxicating liquors shall be granted in this State, and license laws operative throughout the State shall be passed with such restrictions and regulations as may be provided by law, and municipal corporations shall be authorized by general laws to provide for the limitation of the number of saloons. Laws shall not be passed authorizing more than one saloon in each township or municipality of less than 500 population, or more than one saloon for each 500 population in other townships and municipalities. Where the traffic is or may be prohibited under laws applying to counties, municipalities, townships, residence districts or other districts now prescribed by law, the traffic shall not be licensed in any such local subdivision while any prohibitory law is operative therein, and nothing herein contained shall be so construed as to repeal, modify or suspend any such prohibitory laws, or any regulatory laws now in force or hereafter enacted, or to prevent the future enactment, modification or repeal of any prohibitory or regulatory laws. License to traffic in intoxicating liquors shall not be granted to any person who at the time of making application therefor is not a citizen of the United States and of good moral character. License shall not be granted to any applicant who is in any way interested in the business conducted at any other place where intoxicating liquors are sold or kept for sale as a beverage, nor shall such license be granted unless the applicant or applicants are the only persons in any way pecuniarily interested in the business for which the license is sought and no other person shall be in any way interested therein during the continuance of the license. If such interest of such person shall appear, the license shall be deemed revoked. If any licensee is more than once convicted for a violation of the laws in force to regulate the traffic in intoxicating liquors his license shall be deemed revoked, and no license shall, thereafter, be granted to him.

## P. H. S. Hold Huntington Eleven To Scoreless Tie

Huntington High School's football team's reputation was shattered Saturday afternoon when the local high school team covered themselves with glory by holding the West Virginians to a scoreless tie. The 1915 football team of P. H. S. distinguished themselves by not allowing the up-river aggregation to score the first time in three years that H. H. S. has not defeated or crossed the locals' goal line. Portsmouth High plays Jackson at Millbrook next Saturday.

The visitors outweighed the locals five pounds to the man. The playing was exciting from the minute the whistle blew. The ball in the first quarter was played back and forth near the middle of the field by both teams. Huntington by steady line backs carried the ball to the locals' one yard line where they lost it on downs. With Wilson making good gains on line backs the Red and Blue warriors carried the ball to the visitors' ten yard line where it was lost by a fumble.

Second Quarter—Portsmouth had the pigskin on the 20-yard line but lost it on a fumble. By end runs, line backs and a pass Huntington came to the locals' ten yard line. Their chance for a touchdown ended when they were penalized 30 yards for crawling. Portsmouth received the ball on downs and line plunges by Wilson, Shoemaker and Wagner carried the oval into Huntington territory. The only two forward passes attempted up to this time failed. Coach Hart shifted the line three times in an effort to stop the line plunges for big gains repeatedly made by the Huntington back men. The second half opened with both teams entering the fray with a "do or die" spirit. Morris was back at quarter in place of Breese who had replaced Morris in the second quarter.

Wilson took the ball on the kick-off and by several line plunges P. H. S. got the ball to the middle of the field and Huntington tried to stop the high school team. The passing was too high and Portsmouth received the ball and Huntington was penalized 30 yards for interference with a man receiving a pass. On their own 10 yard line the locals again received the ball and punned. Huntington tried a pass and Portsmouth was penalized 30 yards for holding. On the locals' seven yard line the visitors lost the ball on a fumble. Wilson carried the ball around left end for ten yards without interference. P. H. S. lost the oval on downs and Hallock Monchner made a run around right end for 15 yards. Hallock Williams was sent around left end and carried the ball to the locals' 4 yard line where it was when the last quarter opened.

Huntington had 4 yards to go in three downs and everybody looked for a touchdown but the locals' line held strong. On the second down with a touchdown but a ball's length away Huntington tried to push a man over with the ball and were penalized 15

yards. A drop kick failed and the locals had the ball on the 15 yard line. Quinn punted 35 yards. A pass to Monchner netted 15 yards. Huntington punted the ball rolling to the locals' two yard line. The visitors worked a pass and then a fake pass, the right halfback carrying the oval. Thomas of the locals, caught Huntington's next pass and made a 35 yard run. A fumble cost the locals 15 yards and Quinn had to punt. Huntington made two good passes, the second one going outside of the gridiron. Fullback Wilson intercepted the next pass and made a good gain. Quinn punted and Huntington fumbled the locals' recovering the ball. Wilson made a line plunge and as he lay grasping for his breath Carter, left end for Huntington, made a leap into the air and alighted with both feet on Wilson's stomach. Referee Drew sent Carter out of the game and time was called, the curtain being rung down on one of the best games ever played by a P. H. S. eleven. The lineup:

P. H. S. ..... H. H. S.  
Williams ..... Carter  
Quinn ..... LT. ..... Meadows  
Coleman, Ball ..... LG. ..... McGraw  
Brandle ..... C. ....  
Anderson, Grass ..... Crawford  
man, Marling ..... RT. ..... Dabney  
Doewell ..... RT. ..... Beach  
Trone, Nutter ..... RE. ..... Beach  
Morris, Breese ..... QB. ..... Henschel  
Shoemaker ..... HB. ..... Williams  
Thomas, Wagner ..... HB. ..... Williams  
Wilson ..... FB. ..... Quinlan  
Time of quarters—15 minutes.  
Referee—E. Dowd.  
Umpire—R. Padan.  
Timekeepers—R. Meeks, P. H. S.; J. G. Graham, H. H. S.  
Head Linesman—James Lyon.

Coach Holliday, Assistant Coach Breese and J. G. Graham, principal of the school, accompanied the Huntington team. They were down east over the showing made by their lads.

John Higgins is in a class by himself as a yell leader. He had the students in the bleachers yelling encouragement to the locals every minute of the game.

By moving the gridiron closer to the bleachers the crowds are kept from the sidelines and out of the way of the players.

Les Sutter, left end, who had his leg injured at Weistown was suffering pain in his underpin when called upon to take Trone's place at end but he never faltered.

Test who would have strengthened the lineup had a little run-in with Coach Hart after Friday's practice and had to view the game from the sideline.

Williams and Trone at ends were in every play; Quinn and Captain Doewell made splendid tackles and Brandle broke up interference and made good tackles.

One won; one lost; one tied; not such a bad record so far.

In all the world there is no faster saddle horse than Uhlan, the famous beauty owned by C. K. G. Billings, who recently showed Uhlan under saddle at the United Hunt and Racing Association meet at Belmont Park Terminal, L. I. Uhlan holds the world's trotting record, having covered a mile in 1 minute and 54 1/2 seconds. Mr. Billings paid \$50,000 for the horse.

## Arrows Defeated By Shamrocks, 18-0

By ripping big holes in the New Boston Arrows this line, and the execution of several forward passes enabled the Shamrocks to beat the Arrows by a score of 18 to 0 Sunday afternoon at Millbrook.

The Arrows took the field minus the services of Halfback Talley, the Arrow speed demon who was certainly missed. The shift of the lineup proved disastrous. The Arrows worked several forward passes for good gains. Just before the half ended Halfback Minor of the Arrows received a knockout blow when he tackled Smith of the Shamrocks.

Fullback Collins made a fine plunge and carried the ball over for the first touchdown. Webb then received a pass and made a 35 yard run for the second touchdown. A pass over the goal to

Burris netted the 18 points. The work of Fullback Collins featured the game. The lineup:

## McDERMOTT IS HEARD FROM

Sporting Editor Times—Replying to an item that appeared in your Wednesday edition of "A Fan" will say that the only outside players that we had in our lineup were Meyers, pitcher and Monk, third base.

We engaged these two players on account of our pitcher and third baseman being out of town. The balance of the team was our regular lineup, and we positively did not have any tawdry or garden players on our team and we couldn't have used them had they been here for the reason that they are not in our class as ball players. Our team has played the Dry Run team a series of three games and we won two of them.

## NATIONAL FIRST IN AGE

## WILLIAMS AT FULL BACK

Pennsylvania and Annapolis played a 7 to 7 tie Saturday, both elevens performing brilliantly upon the gridiron. Graves Williams of this city has been showing up so well on the offensive as well as the defensive that at the last moment he was shifted to fullback, where he played two periods and distinguished himself. Williams is rapidly developing into one of the star gridirers in the east.

## EMERGED FROM BILL PARADE WITH BALANCE ON WRONG SIDE

Notwithstanding the fact that he was awarded a \$2 bill as a prize for being the fattest man in the Bills' parade during the Korn Carnival, Bill Byers has a balance of \$6.50 on the wrong side of the ledger. Just before returning the buggy in which he rode to its owner the night of

the parade, one wheel was broken in some manner, and he had to pay \$3.50 for its repair.

Eyers' friends say that the sign which he carried, "If you love a fat man, kiss me," had something to do with the extra weight which proved too much for one of the wheels.

## Waterworks Expert Can't Come At Once

N. S. Hill, Jr., the New York expert, with whom the J. F. Witmer company engineers first wished to consult before making a final report and recommendations regarding the reservoir wall break, is unable to come to Portsmouth before 27th of October.

Messrs. Witmer and Watson had been given ten days time by the board of control in which to confer with Mr. Hill and report the best method to pursue towards restoring the wall and insuring the city what it contracted for, an 8,000,000 gallon reservoir.

The ten days are now practically up and Mayor Adam Frick writes to Engineer W. L. Watson, the resident engineer, that the information regarding Mr. Hill is very indefinite.

Mr. Hill will be tied up completely this week on a case in a rate hearing before the Public Utility Commission of New Jersey. On the 25th he has an engagement with the city of East Orange in connection with its sewerage disposal plant and on the 27th he has an appointment to meet the municipal engineers of New York to receive a prize for a paper presented by him last year.

## Drys Cover County With A Big Parade Of Automobiles

What was conceded to be one of the most novel vote-making expeditions ever staged in Scioto county was successfully carried out Sunday by the Scioto County Dry Federation when they pulled off their famous Flying Squadron trip.

Fifty automobiles that carried 200 people, 70 of whom were speakers, made up the unique party and their eight separate and distinct divisions, practically every spot in the county being covered Sunday. At the conclusion of the trip Secretary C. M. Weyand of the Scioto County Dry Federation announced that the speakers had addressed 4,300 people, which is in itself a bit of conclusive proof that the trip was the biggest kind of a success. Weather conditions were ideal, the roads in general were good, fine crowds turned out to greet the speakers and enthusiasm reached a high pitch during the trip.

Promoters of the jaunt were eminently pleased with the cordial reception and rapid attention given the speakers. "We found a feeling of determination all along the line and we firmly believe that Scioto county is going to do its part on November 2 to put Ohio in the dry column," said Secretary C. M. Weyand Monday. Leaders of the various divisions all turned in most favorable reports of their trip and we feel confident that Scioto county is going to do her part this fall in the election.

### OLD AGE A CRIME!

Some people are young at 60—red cheeks, ruddy and vigorous. Others are old at 40—joints beginning to stiffen up a bit; step beginning to lag and lose its springiness; occasional touches of pain in the back; feel tired without cause, and possibly a twinge of rheumatic pain.

In most cases, these are the danger signals to warn you that the kidneys are not promptly doing their work of throwing off the poisons that are always forming in the body. To neglect these natural warnings is a crime against yourself. If you have these symptoms, you can find prompt relief in GOLD MEDAL Haarem Oil Capsules. For more than 200 years, this has been the recognized remedy for kidney and bladder ailments.

GOLD MEDAL Haarem Oil Capsules are imported direct from the laboratories at Haarem, Holland. Prices are 25c, 50c and \$1.00. Get them at your druggists. Do not take a substitute.

on statewide prohibition," Mr. Weyand declared. Practically 50 machines left the Government Square at 8:30 o'clock Sunday morning. There were three machines in each squadron in addition to those that went along to help home the trip. In each car of the various squadrons there were \$3 worth of groceries and the audiences were shown the groceries and then just how much whiskey can be purchased for \$3. It was an effective point and the dry leaders worked it up in splendid shape.

The speakers were as follows: Rev. W. T. Gilliland, Harry Edwards, Rev. E. G. Hamilton, Rev. Charles Oakley, Rev. Olmstead, J. H. Finney, C. W. Ridenour, Rev. C. Lloyd Streeker, H. M. F. Kinsey, C. M. Weyand, E. P. Price, Wm. Briggs, Gilbert Grocery company, Henry Heer, Security bank, W. D. Gilliland, George D. Selby, Ed Paffenberger, Ben Dillon, Rev. C. E. Chandler, Rev. Crabtree, Rev. L. J. Hopper, Chris. Wagner, Wm. Burke, Wm. Questel, O. Catlin and Hartsell Evans.

These speakers handled their subjects in excellent style and were cordially greeted at all points. The trip had been well advertised in advance and splendid crowds turned out to hear the orators, who talked effectively and right to the point.

One of the features of the trip was the excellent music. Each meeting had music and singers and there was no let up from the time the first car started out of the city until the last one rolled into town.

There were two squads of the Bigelow band, the Dr. O. U. A. M. band, the Famous Pilgrim Singers, New Boston Quartet, New Boston band, Welch Quartet, Williams Bros., quartet of Oak Hill, Aolian Quartet, Trinity Quartet, United Brethren Saxophone Sextet and other quartets.

L. Marting, Willard Thompson, George D. Selby, Ed Rickey, Charles Conklin, W. B. Anderson, J. O. Selby, Rev. C. Lloyd Streeker, J. J. Rardin, J. T. Spencer, P. E. Selby, John T. ## HOW SHE ENDED TEN YEARS OF SKIN-TORTURE

Oct. 28, 1914: "I had eczema on my face for ten years. Little red pimples, formed in a small spot on my chin and then spread all over my face. They itched and burned me awfully. It was really embarrassing to me, and I would not go amongst people. I tried almost every remedy and treatment but nothing did me any good. I used Rosinol Ointment and Rosinol Soap, and in one month I was cured. This was six months ago and the trouble has never returned." (Signed) Mrs. C. C. Roberts, Weatherford, Okla.

The Rosinol treatment specially heals eczema, rashes, ringworm, and other eruptions, and clears away disfiguring pimples and blackheads, even when other treatments prove worse than useless. Doctors have prescribed Rosinol Ointment and Rosinol Soap for eighteen years, and all druggists sell them.

Woman Weak, Run-down  
Finds Health in a Simple Tonic  
People in Portsmouth will begin to believe us when we say that our delicious Vinol is a wonderful tonic and strength creator. Here is another case where it has proved its wonderful power to overcome weak, run-down, nervous, anaemic conditions.

"I was run down, nervous, and could not do my work without being entirely exhausted, and would often faint without any apparent cause. The doctor said I was anaemic, but failed to help me. My husband brought home a bottle of Vinol and I began to improve after taking one bottle, and after taking four bottles it has built me up so I can do all my housework without help. I recommend Vinol to a neighbor, who says her doctor approves of it and said 'Vinol is a wonderfully good tonic.'" Mrs. Bessie Hering, West Philadelphia, Pa.

We recommend Vinol to our customers as the greatest strength creator we know—due to the extractive medicinal elements of fresh cod livers, without oil combined with peptonate of iron and beef peptonate, all dissolved in a pure medicinal wine. For sale at Frank Aman's Pharmacy.

After a full day with the flying squadron Rev. Oakley delivered a fine sermon on "The Community Conscience" to a splendid audience last night. He dealt with

the topic from the standpoint of the individual conscience on community affairs, stating that many men were conscientious about personal affairs but felt no obligation to take an interest in public affairs. He emphasized the fact that it was every man's duty to vote on all questions of public policy and government. He stated that the community was built on the idea of welfare for all and that no institution should be permitted in the community that did not serve the community's best interest. He put many institutions such as banks, factories and churches to this test and then applied the same test to the saloon. The saloon will not stand this test and therefore has no right to remain in the community.

Many were the expressions of appreciation of the sermon. The chorus choir rendered splendid music.

Next Sunday will be Promotion Day in the Bible school and special exercises will be rendered. Watch the paper for this program. You will be interested.

# GERMANS MAKE ONSLAUGHT AGAINST BELGIANS AS ALLIES CLAIM VICTORY OVER BULGARIANS

## ITALY REPORTED TO BE READY TO JOIN IN NEW CAMPAIGN

London, Oct. 18.—Serbian and Anglo-French troops have occupied the Bulgarian town of Strumitsa, 30 miles north of Saloniki, according to official telegrams from Athens. This follows close upon news that Serbians with allied assistance have repulsed a Bulgarian attack at Vilandovo, turning the advance of the Bulgars into a retreat beyond their own border.

Thus the Anglo-French-Serbian action in the Balkans has leaped out of the field of surmise into a vivid foreground of fact and it is asserted by London military observers to have been crowned at the outset with success. This arrival of French troops at the psychological moment when the Serbian struggle with 40,000 newly arrived Bulgarians at Vilandovo and Suvodol still hung in the balance, has dramatic qualities which for the moment have completely eclipsed the military exploits in other theatres.

The chief military importance of the Allied-Serbian success is the defeat of the Bulgarian plan of cutting the Saloniki-Nish railroad which is known to have been the Bulgarian objective. It is not clear whether British troops co-operated with the French in this operation, but a message from Athens stating they had left Saloniki Saturday for the Serbo-Bulgarian frontier indicates they at least were near the scene of the fighting.

Russian and Italian help thus far has been only indirectly exerted by increased aggressiveness against the Austro-Germans, which makes a further deflection of Teutonic forces to the Balkans impracticable.

In the eastern theatre the Germans again are attacking the Russian positions southeast of Nizhny, but Petrograd commentators regard this to be purely a demonstration calculated to distract attention from the Devins region and Galicia, which have gained greatly in importance with the Balkan developments. It is clear that, although the battle which General Von Ivanoff is fighting continues with varying success, the Germans have been unable to establish themselves on the eastern bank of the river Stripa.

With a particularly intense artillery fire continuing on both sides in the Champagne region the French war office reports slight progress. A strong barricade to the southeast of Neuville has been captured and the Givenchy wood positions have been consolidated.

### Geramns Make Fierce Attacks

La Pance, Belgium, Oct. 17.—(Via Paris, Oct. 18.)—The Belgische Standard, published here, says that a terrible bombardment was in progress along the Yser front Saturday and Sunday nights. The firing was especially violent near Dixmude and Ypres. This bombardment was the prelude to an attempt by the Germans to break the Belgian lines. The Belgian artillery returned the fire, shelling the enemy's communication trenches and scattering his infantry as they leaped from the trenches. A second attack on a smaller scale also was repulsed.

This offensive took place in the Dixmude region at a spot known as "Death's Highway," which has been stubbornly disputed by both sides. Although mowed down in rows the Belgians have been holding their own and are not yielding an inch of ground.

### Italy May Help Against Bulgaria

Paris, Oct. 18.—The British blockade of the Bulgarian coast, says a dispatch to the Petit Journal from Athens, is a prelude to combined land and sea operations along the Aegean coast of Bulgaria and Turkey. In these operations Italy will be represented by a naval squadron and a number of transports.

### Strumitsa Is Prize of Allies

London, Oct. 18.—Occupation of Strumitsa Bulgaria by the allied forces is confirmed by a dispatch to the Exchange Telegraph company from Athens. The dispatch adds that the allied armies are advancing.

A number of allied warships are cruising in the Aegean, off the Bulgarian port of Dedeagatch.

### Claim Austrians Are Repulsed

London, Oct. 18.—A Renter dispatch from Cetinje, Montenegro, dated October 12, and delayed in transmission, says that attacks delivered the preceding day by the Austrians against Montenegrin positions on the Drina-Grahovo front were repulsed with heavy losses. One of the three aeroplanes flying over the Montenegrin positions fell near Plevlje and the pilot and an officer were captured.

### Aeroplane Drops Bombs

Chaux des Fonds, Switzerland, Oct. 18. (Via Paris).—A foreign aeroplane passed yesterday afternoon over this town which is near the French border and dropped three bombs. One adult and one child were wounded.

## "ARMED PREPARATION" IS URGED FOR WINTER CLEAN STOVE PIPES-WATCH CONNECTIONS

Columbus, O., Oct. 18.—Bert B. Bickley, state fire marshal, today issued a bulletin urging persons to clean stove pipes before winter sets in, and to make careful connections between the pipes and wall or ceiling, to prevent fires. He also cautioned against the use of gas stoves without flues to allow the escape of fumes.

"To jar a piece of pipe loose," he says, "but its inner surface should be scraped to remove scales of rust. The seam along each pipe should be inspected to determine if it is tight."

"A stove pipe should not stand within less than three feet of the unprotected woodwork. If a piece of zinc, sheet iron or tin is hung loosely on a hook in the wall, the pipe may be safely placed within a foot."

"Attention to the avenues of escape of products of combustion of natural gas is of serious importance on account of the danger of asphyxiation of occupants by fumes escaping into the room."

Following suit of the Boy Scouts, English girls are organizing into companies known as Girl Guards. These little women are taught rudimentary household and social welfare facts which will be of use to them and their country when they grow up. ## Women Suffragists Busy On Eve Of Big Eastern Election

Newark, N. J., Oct. 18.—The first great eastern fight on the suffrage battle-line of woman suffragists is today only 24 hours away. At six o'clock tomorrow morning the polls throughout the state of New Jersey will be thrown open to determine, at a special election, whether "votes for women" banners will be planted victoriously hereafter upon the Atlantic seaboard.

Two weeks from tomorrow the states of New York, Pennsylvania and Massachusetts likewise will decide whether they will join their twelve western sister states in giving women the ballot.

President Wilson's declaration for suffrage, reinforced by a thorough and vigorous campaign waged by organizations and workers is expected by suffrage leaders to carry the day for woman suffrage in his home state of New Jersey.

More than 350 women speakers and other workers went over the battlefield today.

Less spectacular but none the less thoroughly organized was the campaign conducted by opponents to suffrage. Party lines have been obliterated in the contest. Democrat and Republican leaders are working both for and against the cause. Some suffrage workers feel that both organizations are quietly opposing them.

Women watchers and workers to the number of 5000, admitted to the polls at the forthcoming election for the first time in the state, received their final instructions today and prepared to take their places tomorrow at virtually every one of the polling precincts in the state.

## GROWING COST OF LIVING IN PARIS IS CONSIDERED SERIOUS

Paris, Oct. 18.—"The situation is serious but not alarming," says Louis J. Malvy, the French minister of the Interior, in discussing the growing cost of living.

"It would be an illusion," he continued, "to pretend to bring back prices to the normal, but by concentrated efforts on essential articles of food the government can enable Parisians to obtain food at prices which never will be prohibitive."

"Arrangements have been made to make a rise in the prices of bread impossible. Steps are being taken to increase imports of frozen meat, butter, eggs and dry vegetables, but it is as a result of speculators' operations these measures are ineffective the government will not hesitate to have recourse to taxation."

### Ernest Foster Filled Pulpit

In the absence of the regular pastor, Rev. John W. Dunning, Ernest Foster, a theological student from Lane Seminary, Cincinnati again occupied the pulpit at the First Presbyterian church Sunday morning and evening.

## PLAN FOR MANNER OF RECOGNIZING THE CARRANZA FACTION

Washington, Oct. 18.—Determination of the form in which recognition of which the Carranza government in Mexico shall be extended, was the object of a conference here today of Pan-American diplomats. The conference had been called by Secretary Lansing, and meeting with him were the diplomatic representatives here of Brazil, Chile, Argentina, Bolivia, Uruguay and Guatemala.

Recognition by countries having diplomatic representatives in Mexico, it was believed, would take the form of a renewal of relations in an official way. The United States and other countries now without representation in Mexico City were to accord recognition by presenting a note to General Carranza through Eliseo Arredondo, his representative here.

A statement on conditions in Mexico, based upon a report from General Alvaro Obregon and given out by Eliseo Arredondo, declared that the only organized opposition to the Carranza government was confined to portions of the states of Sonora and Chihuahua, adding that an expedition had been sent to Sonora to assist constitutional forces there in smothering the Maytorena army. The statement also announced the surrender of many former Villista officers.

## JEWS PLAN TO AID RELATIVES IN EUROPE

New York, Oct. 18.—Charged with the mission of locating families and relatives of Jewish residents of America in the various war zones of Europe, Isidor Herschfeld, a lawyer, will leave for Europe on Thursday. Mr. Herschfeld will act as representative of a number of Jewish societies.

Mr. Herschfeld will also undertake a study of the conditions of the Jews in Europe and will endeavor to spread a knowledge of American immigration laws with a view to discouraging the coming to this country of those who would be excluded. It is estimated here that 1,500,000 Jews have been driven from their homes in Europe.

One of Mr. Herschfeld's objects will be to ascertain how many Jews are likely to come to America in the next year so that preparations can be made for their arrival and to distribute them throughout the country.

The general manager of one of the Hebrew societies here, estimated that from 250,000 to 500,000 Jews will arrive in America in a year.

## Lost! Gas Supply Of An Entire City

Newark, Ohio, Oct. 18.—Twenty-five employees of the Newark Natural Gas company have searched since three o'clock this morning for the cause of the sudden loss of the gas supply and this morning Newark people went without their usual warm breakfast. Newspapers are handicapped because linotype machines heated by gas are useless. Restaurants provided with combination gas and coal stoves did a rushing business during the early morning hours.

## CHICAGO WRESTLES WITH SUNDAY CLOSING LAW

Chicago, Oct. 18.—Seventy-four violations of the Sunday saloon closing law were recorded in revised police reports today, an increase of forty-six over the number reported a week ago when Mayor Thompson's order went into effect. Thirty-five of the violations consisted of obstructing a view of the bar.

Arrests for intoxication kept pace with the increase on the list of closing violations. A week ago Sunday fewer than thirty arrests were made. Yesterday fifty persons were arrested for drunkenness. The average number of Sunday arrests is 75. Chief of Police Hawley said, however, that the Sunday closing has decreased the amount of crime to a "very considerable extent."

All cases of violations will be submitted to Mayor Thompson tomorrow with the recommendations that licenses be revoked.

### OUR OWN NEED.

We confess to a feeling of envy every time we take up a copy of the special edition of the Intelligencer, of Edwardsville, Illinois, which came this day. Not that we begrudge its able and successful editor and sole proprietor, Hon. Charles Boeschstein, anything he may achieve. Not at all, for our friendship with him began when the same year we two began our newspaper careers in nearby towns and when youth's blood ran warm and strong, and though years and distance have run long between since then, it is pleasant to know our affection for each other is just as sweet and true as in the days our future opened and bade us onward. So we glory in his triumph in getting out the handsomest and most interesting special edition we have ever seen, as in every one of the forty pages there is something of deep interest, even to the casual reader of the hour, and it will grow in value as a historical record so long as print and paper will last, while the printing is itself a superb illustration of skilled work. What then are we envious of? The frontispiece of the special edition, a life-like production, if we can say that of an inanimate thing, of the magnificent new Madison county court house, which Edwardsville will dedicate with much festing this Monday. When we say the court house is magnificent, we speak advisedly and knowingly—because we have seen it with our own eyes. It departs totally from the usual "gingerbread" effect used in the erection of temples of justice as it is plain exteriorly, almost to severity, but its lines are graceful and imposing, and run on a composite of Grecian and Corinthian architecture, most effectively worked out in Georgia marble. The interior is simply beautiful. Its cost, including about \$70,000 for furnishing, was around \$300,000.

Gazing upon the picture of it makes us envious because Scioto county ought to have a court house approaching it, and a similar frontispiece in The Times, which always has and always will maintain that nothing is too good or fine for Portsmouth and Scioto county, would make us feel as though the ultimate in our newspaper work had been attained.

### A HIGH STANDARD.

Base ball is called the American national game. It is to be hoped it is well so called and it typifies the standard and character of the country.

The game is wholesome and unquestionably the cleanest of sports, being conducted on a high and honorable plane, accompanied by the keenest rivalry, both among players and spectators. It is the one pastime from which fraud and fake seem to be absolutely excluded. We have this excellent reputation most impressively maintained and given added lustre in the series for the national championship, just concluded between the Boston and the Philadelphia. While the game has been said to have lost much of its hold, yet never was there such intense interest displayed at any other time, if we may correctly judge from the attendance and the amount of money taken in at the gates. Tens of thousands could have been made by protracting the series just one game, but nothing of the sort was attempted and the best club, at least for a short sport, won in the least possible time, after the first play.

If it be true, as claimed, that from reckless competition and the greed of individual players, the sport has gone into a distinct decline, the fair and square manner in which the recent series was conducted will have much to do in revivifying it and the beneficial influence that a high standard always carries.

### AS AGE CREEPS ON.

Nature is kindly as age creeps on. She conceals from the object of her attack the real meaning of her warfare. She lays years upon him so lightly that he is actually bowed with the burden before he knows the load he carries comes from the seasons that are charged to him.

If a man were not allowed to see himself between the ages of, say, forty and sixty—if he were not permitted to gaze into a mirror at any time during the period—he would, indeed, be shocked by the changes that have been wrought in his appearance. But seeing himself every day, he notes no change.

Then, Nature is kindly with her compensations. As she lays on the burdens, she removes the desire for such things as can not so well be performed while carrying burdens. As she hardens the bones and draws the elasticity from the muscles, she removes also the impulses to run and jump and throw and romp.

And as she progresses with her subject, Nature sends a compensation for everything she destroys. With age comes meditativeness—the desire and the capacity to think more seriously; an appreciation of the beauties of the world she sends along with the years she gives to us. She causes us to appreciate more fully our associates, and to see in others greater virtues than we saw in younger days. So it can be said that instead of cruelly punishing the race by laying the years upon us, she is kindly in her attitude toward all.—Columbus Dispatch.

Big things are going on behind the curtain of the censorship in the Balkans and upon the outcome may hinge the result of the gigantic struggle that has convulsed Europe for the past year. If the Germans crush Serbia, the way to Constantinople will be open for troops and munitions and the next step will undoubtedly be the hasty evacuation of the Gallipoli peninsula by the allied troops, who now have but a precarious foothold.

## IN BROWN OCTOBER--SOME EXPERT DOPE UPON THE SPORT OF GATHERING NUTS.

### DON'T BLAME US FOR ANOTHER'S SINS.

We note, with sincere satisfaction that Editor Harry Taylor, of The Portsmouth Times, has recounted. All the unpleasant things he has said of the sparkling frost and the wine of energy it, instills in human blood are forgotten and forgiven, for the best of reasons.

Brother Taylor (bless him!) has had his artist draw a picture of him for his editorial page in which he complains that Jack Frost is loading on the job and hasn't "painted a tree yet" in "nature's colors rare". The frost, he says, has "guaranteed satisfaction" on the hills and in the dales, but has not yet done his work, and he is "hankering for Autumn's red and gold."

We know it! And how delicately and modestly Brother Taylor has come across to the Lord's side and given up his foolish longing for blistering hot days, mosquitoes, flies, fleas, gnats and all the other summer nuisances.—Gallipoli Tribune.

H. W. Wendelken, engineer with the state highway department, and who has had charge of much of the state road work in this county, has been at Bluefield, W. Va., in attendance at the meeting of the Southern Appalachian Good Roads Association, sends us a copy of the program and souvenir books of Bluefield. The governors of half-a-dozen southern states were present and some of the best road experts in the country were down for practical talks on road building. It is interesting too, to note that the good roads movement is not confined to Ohio alone, but that it is practically a nation wide movement. The southern states which have been lagging in the matter of highways, are waking up and before long they will have as good roads as anybody.

There is only one thing to buying an automobile. Have the money to put into it, then pick out the make that appeals to you. There are plenty of good cars on the market and some one make will have peculiar qualities that will strike you. That is the car to buy. If you do not buy it you will always wish you had and you will never be perfectly satisfied with what you did buy. But if you do buy the make that strikes your fancy you will be certain to feel that you have the very best car on the market and it will add to the joy and pleasure you will get out of motoring.

It must be a fine thing to be a high salaried European war correspondent. All they have to do is to hang out in some large city about fifty miles behind the firing line and copy official reports to send out over the cable. The real news is not allowed to be sent until it is history and by that time the rest of the world knows it too and is not interested. If they would only turn the war correspondents loose however, there would be some mighty interesting inside facts about the real status of the war being printed.

Our imports in August, 1914, amounted to \$129,767,890 as against \$141,830,202 in August, 1915. The increase was in crude material for manufacturing. Our exports in August, 1914, were \$103,198,262 while in August, 1915, they were \$257,065,921. The largest gain was in manufactures ready for consumption.

Why is it that hangings have such attraction for people? Here in civilized Illinois, at a town named Murphysboro, 2,000 gathered to witness the strangling to death of a man convicted of murder. Two thousand other people were unable to gain admission.

We have spoken to the paste board man in Tritschler's show window so many times thinking that it was the boss of the establishment that we have decided to cut the real boss off our speaking list unless he speaks first.

New York, Oct. 18.—'Tis a strange world indeed. Some time ago some good Invaluable Nuts, engaged in uplifting this world, plucking figs from thistles, spinning ropes of sand, razing the grind stone and bailing the cat, had a meeting in Union Square—the Mecca of the soap box silver tongues.

These uplifters ventured to say that perhaps all was not for the best in the best of possible worlds. A few more courageous lifted their voice until it could be heard by the jobless sleepers in the park, but no one was disturbed yet the uplifters were clouted, pinched and thrown into the clink.

Just now during the noon hour little groups of war agitators hawl treason in broken English, harangue the president, defy the government and with every breath vomit insults upon the country whose bread they eat. There are a lot of simple minded folk who would like to know why these traitors are not slammed into the cooler.

J. Wade McGrath, of the Hurgrave, motored from New York to Cleveland a few weeks ago and was forced one night to stop at a small cross roads hotel in Pennsylvania for the roads were bad. It appears that the landlord of the hotel was reckoned the meanest man in the country.

He kept everything under lock and key, and there was no chance for a casual caller to get pen, ink or soap, or anything else free. The night McGrath arrived a boy from the depot called with a message and looked at the old time piece which hung on the wall.

When McGrath sent down the next day a large sign hung over the face of the clock. It read: "This clock is for the use of the hotel only."

The night that Tad was there the club drew a big crowd and Lew wanted it to be a big fight so that the patrons would return. He called in the warriors for the first skirmish and told them to go to it. They fought like whirlwinds for the first five minutes and then slowed up. Some one yelled in the gallery asking if they roomed together and one in a falsetto voice cried: "Stop the wanton brutality."

Finally Lew, who was to slip the winner five dollars, slid down to the ringside and barked: "Come on there—a little speed."

One of the gasping boxers lifted his head and with a withering glance at Bailey said: "Whadda ye want for five bucks, a Civil War?"

"Take off your shoe and see what's in it," counselled the stranger. She did, and there was a diamond on which one might raise maybe 200 seeds. "Oh, joy," she cried, "it was the bad man who lost it. Isn't he stung?"

### IF HAIR IS TURNING GRAY, USE SAGE TEA

Don't look old! Try Grandmother's recipe to darken and beautify faded, lifeless hair.

That beautiful, even shade of dark, glossy hair can only be had by brewing a mixture of Sage Tea and Sulphur. Your hair is your crown. It makes or mars the face. What it fades, turns gray, streaked and looks dry, wispy and saggy, just an application or two of Sage and Sulphur enhances its appearance a hundredfold.

Don't bother to prepare the tonic; you can get from any drug store a 50 cent bottle of "Wyle's Sage and Sulphur Compound," ready to use. Bring out the natural color, thickness and lustre of your hair and remove dandruff, stop scalp itching and falling hair.

Everybody uses "Wyle's Sage and Sulphur" because it darkens so naturally and evenly that nobody can tell it has been applied. It simply dangles a sponge or soft brush with it and draw this through the hair, taking one small strand at a time; by morning the gray hair has disappeared, and after another application it becomes beautifully dark and appears glossy, lustrous and abundant.

# WOMAN THROWN FROM BUGGY: NECK IS BROKEN

## Daughter Witness To Fatal Accident

Death in tragic form overtook Mrs. Jacob Schuster, a well known resident of Pike county, who resided three miles south of Piketon while she was driving her daughter Hazel to high school in Piketon Monday morning.

The horse Mrs. Schuster was driving took fright while driving down what is known as Pike Hill near Piketon and both Mrs. Schuster and daughter were thrown from their buggy. Mrs. Schuster's head struck the railroad track and her neck was broken, her death being instantaneous.

Miss Hazel Schuster was also badly injured in the runaway. The family is one of the best known in Pike county and the news of Mrs. Schuster's tragic death and serious injuries suffered by her daughter in a runaway accident caused a sensation in Piketon and Waverly, where the news quickly spread.

The accident took place near what is known as Little Beaver, three miles south of Piketon. Mrs. Schuster's body was removed to Fred Kress' undertaking establishment in Piketon and the coroner of Pike county was notified.

## Collar Bone Broken

Mrs. Becky Steinker, of 345 Front street, while leading a horse near her home Sunday was knocked down by the horse and suffered the fracture of her left collar bone. Mrs. Steinker says the horse stepped on her and that she had a close call from being trampled to death.

Dr. William D. Schaefer was called and attended Mrs. Steinker, who also suffered bruises.

## WILL EAT APPLES AND GET BETTER ACQUAINTED

"An Apple Eat" scheduled for the Second Presbyterian church Friday evening, is something new in the way of a get-together, get-acquainted meeting. "An Apple Eat" was originated by the church's pastor, Rev. George P. Horst. John E. Williams' class has donated several barrels of apples.

Did you ever hear of "An Apple Eat"? Neither did we. But this is the point. The officials want the men and boys of the Second church to become acquainted. They are invited to the church on Friday evening, October 29th, at 7:15 p. m., to shake hands, eat apples, and take part in the Wonderful Snake Dance. Everything free.

If your husband or boy is not present, ask the man at the door for a capsule. Several surprises have been arranged for the evening.

## Delegates Home

Messrs. Louis Herder, Henry Kuhn, George Click, Fred Burkhardt, Wm. Abrahams, E. E. Hise, Floyd Burdick and Harry Strong returned from Mansfield Sunday, where they attended the annual meeting of the Ohio Federation of Labor. Local delegates declare the meeting to be the largest ever held by organized labor in Ohio.

One of the most important things that was done at the meeting was to endorse a movement against prohibition by a large majority.

The next meeting will be held in Toledo.

## New Sunday School Gets A Fine Start

The new St. Monica church Sunday school was organized at the Thaliau theater in New Boston Sunday afternoon with an initial enrollment of 53 children.

Quite a number of parents and other adults were present, and judging from the interest shown, the enrollment of the school will be doubled within a short time.

Sisters M. Euphrasia and M. Otilia, of St. Mary's parochial school, conducted the Sunday school and were greatly pleased with the results attained.

Arrangements have been made whereby the theater, which has a seating capacity of 300 and is splendidly heated and ventilated, will continue to be used for a Sunday school every Sunday afternoon and every fourth Sunday of each month for congregational business meetings. Thus the congregation is enabled to bide its time in securing a site for a parish church and Sunday school, and nothing in the way of such negotiations will be attempted for at least another year.

Rev. Father T. A. Goebel delivered an interesting sermon at St. Mary's church, Sunday, on the life of Saint Monica, under whose patronage the New Boston Catholic church has been placed by Rt. Rev. James J. Hartley, Bishop of Columbus.

## Baptismal Rites Administered

Children baptized by Rev. Father T. A. Goebel at St. Mary's church Sunday afternoon were the following: Anthony Emerson, newly born son of Mr. and Mrs. William Scott, of Findlay street; Mr. and Mrs. Joseph Miller; Mary Frances, infant daughter of Mr. and Mrs. Mathias Holzman, of Worley's Run, August Doll and wife sponsors.

## Broken Arm Lurks In Fierce Tackle

While playing football in the North End Sunday, Walter Atkins, aged 15, suffered the fracture of his left forearm. He was thrown to the ground when tackled and when he regained his feet he found that his forearm had been broken. His parents reside on Fourteenth street.

## POLITICS

Between 1200 and 1300 voters registered or transferred Friday and Saturday, the last days of registration, according to Clerk James R. Distel, of the deputy supervisors of elections, who stated Monday morning that the registration for the two days averaged from 60 to 65 to a precinct.

Mr. Distel stated that the registration this year exceeded that of any former year of a municipal election, which indicates that a heavy vote will be polled in this city in November. Activity of the wet and dry workers is thought to have been more responsible for the registration than the work of the politicians.

The registration of women was not so large as the advocates of a woman candidate for member of the board of education had hoped for, the number ranging from 350 to 400 during the four days of registration.

All voters who had not registered in previous years and who have failed to register or transfer this fall, will not be permitted to vote in the election. This does not include those who were absent from the city for a distance greater than fifty miles on the four registration days.

Two Republican meetings are scheduled for Wednesday evening of this week. The members of the First Ward Republican Club will hold a rally at the Republican headquarters in the Haldean building on Gallia street, while the Fourth Ward Republicans will assemble in the Distel Hall.

No speakers have been assigned to the two meetings, according to Chairman Smith of the Republican committee, but the different candidates and spell blunders will divide their time between the two meetings.

## BOYS WILL BE BOYS

Complaints were received by the police Sunday about noisy boys at the Bond street school corner among residents of that neighborhood. Officer Bono scattered the youngsters. A complaint about boys disturbing neighbors also came from No. 1521 High street.

## Mr. Spears Closes His Campaign For Wets

Harry W. Spears, the wet orator from Hamilton, closed his week's campaign in this county with an address at New Boston Sunday afternoon. About 200 voters listened attentively to his remarks, which extended over one hour and a half. The meeting was held in the open lot opposite the post-office.

Local wet leaders were pleased with Mr. Spears' addresses in this county, and felt that he accomplished much for their cause. All of the meetings were well attended, and the speaker given the most polite attention and consideration.

Handkerchief Newspapers

Pocket handkerchief newspapers were issued in England in the early part of the last century while journals were subject to the stamp duty. The editor of one of them, Berthold's Political Handkerchief, suggested that after six months' wear, if the ink washed out, he would buy the handkerchiefs back again from his readers. The price of this novel newspaper was fourpence.

# SLEUTHING ENDS WHEN BARBER IS CAUGHT IN 'AFFINITY'S' HOME

## RIFLES DUG UP AFTER ALLEGED CONFESSION

Following a confession alleged to have been made by Ed Bowman, one of the suspects in the Company K armory robbery, Chief E. E. Allen and Sergeant James Marshall recovered two Springfield rifles, bayonets and belts, Sunday night.

The guns were found in a box buried underground in a shed at the rear of John Wilburn's home on Gallia street, near Offshore. According to the confession, three or four army blouses were taken from the armory by Ed Greenslate after drill last Monday night, at which time the guns were said to have been taken by Wilburn. Greenslate was therefore arrested and locked up, though he denied all knowledge of the shirts.

Bowman told the police that Wilburn returned to the armory again on last Thursday night, entering it through a window, and then stole

The meetings will be held in the Carnegie Library and the dentists will sit down to a banquet at 6:30 this evening. The physicians of Portsmouth have been invited to attend the banquet and many of them will be present.

At tonight's meeting a paper will be read by Dr. H. W. McMillan, D. D. S., of Cincinnati. His subject will be "The Anatomy of the Oral Cavity and Its Relation to Local Anesthesia." The discussion will be led by Dr. Howard Williamson, of this city.

This afternoon's meeting will start promptly at 1:30 o'clock.

Edgington was still heifast at the Rockwell apartments Sunday night and was reported to have suffered several fainting spells. He retained Attorney B. F. Kimble to look after his interests.

Mrs. Edgington had been camping on her husband's trail for the past month or two. She reported to the police that a sudden change had come over him, that he would sit about home staring into space and seemingly in deep study, which was in striking contrast to his former happy and cheerful demeanor. He, too, had ceased giving her the same amount of money he was accustomed to for the upkeep of the household and she felt he was either squandering his earnings at gambling or on women. She asked the officers to shadow him but requested that the strictest secrecy be maintained for were he to know what she had done he would kill her, she claims. Officer Emmett was the first patrolman detailed to watch Edgington and the same night claimed to have seen him meet a woman at Front and Market streets but they disappeared before he could approach any closer. Another officer took up the vigil the next night and the identity of the woman was finally established. Edgington began keeping late hours, according to the wife, and finally spent nearly all of his time away from his home and family, it is claimed.

The family resided on Third street, east of Bond. A baby was born to them just a few months ago. Both Mr. and Mrs. Edgington formerly lived at West Union, Adams county. Mrs. Edgington before her marriage was Miss Florence F. Foster.

Mrs. Edgington created quite a scene just before the time for court to convene Monday when she discovered that Miss Rockwell was not present to answer to the affidavit against her. Sobbing bitterly she demanded that this woman who she said had broken up her home, be made to appear and to satisfy her the court ordered Miss Rockwell brought in at 1 p. m., although her bond of \$25 was declared forfeited. Edgington left the court room at once but his parents remained behind to assist their daughter-in-law home with her three little children.
